Sierra Stories Gary Noy, 2014-08-01 The author of *Gold Rush Stories* shares tales of the larger-than-life characters from the history of the legendary Sierra Nevada mountain range. With its 14,000-foot granite mountains, crystalline lakes, conifer forests, and hidden valleys, the Sierra Nevada has long been the domain of dreams, attracting the heroic and the delusional, the best of humanity and the worst. Stories abound, and characters emerge so outlandish and outrageous that they must be real. Could the human imagination have invented someone like Eliza Gilbert? Born in Limerick, Ireland, in 1818, she transformed herself into Lola Montez, born in Seville, Spain, in 1823, and brought to the Gold Country the provocative "Spider Dance"—impersonating a young woman repelling a legion of angry spiders under her petticoats. Or Otto Esche, who in 1860 imported fifteen two-humped Bactrian camels from Asia to transport goods to the mines. Or the artist Albert Bierstadt, whose paintings Mark Twain characterized as having "more the atmosphere of Kingdom-Come than of California." Or multimillionaire George Whittell Jr., who was frequently spotted driving around Lake Tahoe in a luxurious convertible with his pet lion in the front seat. These, and scores more, spill out of the pages of this well-illustrated and lively tribute to the Sierra by a native son.

In the Shadow of the Polish Eagle L. Cooper, 2000-10-31 The behaviour of many Poles towards the Jewish population during the Nazi occupation of Poland has always been a controversial issue. Although the Poles are supposed not to have collaborated with the invaders, there is evidence to show that in respect of the Jewish population, the behaviour of many Poles, including members of the underground, was far from exemplary. Poland is also the only European country where Jews were being murdered after the end of the war and where strong anti-Semitic tendencies are still present. This book analyses this question in an historical context and attempts to offer an explanation for the phenomenon of Polish anti-Semitism during and after the end of the war. The work is based on recently uncovered documents as well as on personal accounts of witnesses to the events during the war.

Human Impacts on Seals, Sea Lions, and Sea Otters Todd J. Braje, Torben C. Rick, 2011-03-23 "The bones recovered from the middens of the northeastern Pacific shorelines have important stories to tell biologists, marine mammalogists, and those concerned with marine conservation. This volume unearths a wealth of information about the historical ecology of seals, sea lions, and sea otters in the North Pacific that spans thousands of years. It provides fascinating insights into how the world once looked, and how it may one day look again as seals, sea lions, and sea otters reclaim and recolonize their former haunts."—Andrew Trites, Director, Marine Mammal Research Unit, University of British Columbia "Braje and Rick have assembled a compelling set of case studies on the long-term and complex interactions between people, marine mammals, and environments in the Northeast Pacific. The promise of zooarchaeology as historical science is on full display, as researchers use geochemistry, aDNA, morphometrics, and traditional analytic methods to address questions of utmost importance to the long-term health of coastal ecosystems. If this book doesn't convince conservation biology about the need to take the long view of animal histories and ecosystems into account in developing conservation management plans, I'm not sure what

will.”—Virginia L. Butler, Department of Anthropology, Portland State University
