Moto Hagio's a Drunken Dream and Other Stories Moto Hagio,2010 Moto Hagio has been reinventing Shoji manga (Japanese comics marketed at teenage girls) since 1969. Unconstrained by

boundaries of genre, she has sculpted a career characterised by intellectual curiosity, psychological authenticity and an aesthetic sense that has often been at odds with a Shojo manga mainstream littered with Sailor Moon knockoffs and sub-Mills and Boon romance cliches. Now, for the first time in English, Fantagraphics offers a selection of Hagio short stories spanning four decades of groundbreaking work by an artist at the peak of her powers.

Gold Pollen and Other Stories Seiichi Hayashi, 2013 *Gold Pollen and Other Stories* collects a handful of Hayashi's most important manga from his reigning years during the late 60s and early 70s. Memorable examples include *Red Dragonfly* (1968), *Yamauba's Lullaby* (1968), and *Gold Pollen* (1971). Published here in original full colour, these stories mix traditional Japanese aesthetics with pop Art sensibilities, and range in topic from the legacies of Japanese right-wing nationalism and Second World War, to the shadow of America over 1960s Japanese youth culture.

Medicine Caroline Petit, 2014-01-30 The extent to which classical theories about, and practices of, medical knowledge have shaped and continue to define medicine today is remarkable: but not always widely appreciated. Caroline Petit here offers a concise yet comprehensive account of medicine in antiquity which explores precisely that fascinating legacy. Discussing topics such as medical ethics, diagnostic explanations of illness and disease, matters of sex and gender, the ancient division between body and soul, interpretations of madness and melancholia, and methods of medical teaching and dissemination, the author draws fascinating parallels between the ancient, early modern and modern periods. We learn, positively, that the ancient medical thinking of Galen, Hippocrates and Soranos of Ephesus nourished the thought of some of the greatest physicians in history; but also that, negatively, modern medical thinkers sometimes misused ancient texts in pursuit of their own social and political agendas - a recurring problem in the history of medicine. Discussing a variety of ancient

texts, from the Hippocratic era to the late Roman Empire, and examining contested literary evidence and interpretations, Petit skilfully traces the trajectory of medical practice from its magical and religious origins to a rational science of pathology, physiology, surgery and anatomy.

Space Systems for Disaster Warning, Response, and Recovery Scott Madry,2014-09-06 This SpringerBrief provides a general overview of the role of satellite applications for disaster mitigation, warning, planning, recovery and response. It covers both the overall role and perspective of the emergency management community as well as the various space applications that support their work. Key insights are provided as to how satellite telecommunications, remote sensing, navigation systems, GIS, and the emerging domain of social media are utilized in the context of emergency management needs and requirements. These systems are now critical in addressing major man-made and natural disasters. International policy and treaties are covered along with various case studies from around the world. These case studies indicate vital lessons that have been learned about how to use space systems more effectively in addressing the so-called “Disaster Cycle.” This book is appropriate for practicing emergency managers, Emergency Management (EM) courses, as well as for those involved in various space applications and developing new satellite technologies.

For All Time Jude Deveraux,2014-07-01 NEW YORK TIMES BESTSELLER • Jude Deveraux returns to the magnificent, sunny island in *For All Time*, the second novel in her Nantucket Brides trilogy—this time featuring the next generation of her beloved family of Montgomery-Taggerts. The wedding of Alix Madsen and Jared Montgomery is a glorious affair at an elegant little chapel in the woods,

followed by dinner and dancing, all while moonlight blankets the festivities in a romantic glow. While most guests are fixed on the happy couple, Jared's cousin Graydon can't look away from a bridesmaid, Toby Wyndam. It's not just her quiet beauty that entralls him or the way she makes him laugh. Toby possesses the truly remarkable ability of being able to distinguish Graydon from his identical twin brother, Rory. According to family legend, such a gift marks her as Graydon's True Love. But Graydon knows there is no possible way that they can ever be together, for he is heir to the Lanconian throne and is to marry a noble woman who has been chosen for him. Yet, intrigued by Toby, he asks her to help him hide on Nantucket for a week away from regal responsibilities. In exchange, he'll assist her with planning acclaimed novelist Victoria Madsen's lavish wedding. Since they both know their union is impossible, the pair promises that they will never be more than just friends. But there's more going on between Graydon and Toby than her unique power to tell him apart from his twin. At work are forces beyond their control, which are ruled by time itself. Combine that with the magical island of Nantucket, and a seductive spell is cast over Graydon and Toby. If they are to be together, they must change what once was, as well as what will be. **BONUS:** This edition includes an excerpt from Jude Deveraux's *Ever After*.
