Hard Cop, Soft Cop Roger Hopkins Burke, 2013-01-11 The 16 chapters of this book examine policing styles and their effects in the context of and in response to the characteristics and threats of contemporary societies, with attention to developments in the United Kingdom and some other Western countries. The chapter focuses on both the styles and pervasiveness of modern policing in culturally diverse societies faced with significant security threats. The policing styles contrasted are hard policing, which is exemplified by the zero tolerance policing approach made popular by Mayor Giuliani in New York City in the mid-1990's, and soft policing, as illustrated under the paradigms of community policing and restorative justice. These policing styles coexist under an umbrella of multiagency social control that encompasses the public police, private police, and social service agencies. The chapters of this book discuss these issues under three major sections. The first section contains six chapters that address zero tolerance in New York City, the policing of incivilities in Germany, the policing of socially isolated minority communities in the United Kingdom, the policing of British Asian communities, hard policing under current British probation policies, and the soft approach of private policing in Great Britain. The second section on the policing of contemporary offenses discusses policing crackdowns, a proactive approach to theft offenses, stalking, financial crime, and police involvement in rehabilitative probation programs. The four chapters of the concluding section consider the operation of current policing styles within liberal democracies and how current threats to democratic nations are creating a conflict between citizens' desires for collective security and the preservation of accustomed civil liberties and human rights.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Global Reason Dr. M.B. Mahawarkar, 2018-06-14 All activities including writing should be based on the nature of the human society to abolish global anarchy through global peace. That not is fiction. Nothing is above and beyond, everything is in human society. Human society is the latest animal society that evolved from a beast society. World anarchy is the world society; there is no global criterion to decide right or wrong, good or bad, legal or illegal, just or unjust, and reason or anti-reason. Humans are the creators, continuers, and the abolishers of problems.

Urban Insanity Saheba Atal, 2018-05-11 Her life was always through unexpected situations, a woman like Ellen never ever imagined a life like her. She never complained to those who never saw the mother in her. Her soul was matured enough to overcome the sorrow when she lost the most

The world and mysterious gods stood with her from the moment she started fighting back for survival. She was just like our mother earth with selfless love.
