Transitions in American Education Donald Parkerson,Jo Ann Pakerson,2014-03-05 This book is a concise social history of teaching from the colonial period to the present. By revealing the words of teachers themselves, it brings their stories to life. Synthesizing decades of research on teaching, it places important topics such as discipline in the classroom, technology, and cultural diversity within historical perspective.

**The American Teacher** Donald H. Parkerson, Jo Ann Parkerson, 2010-06-21 The American Teacher is a comprehensive education foundations text with an emphasis on the historical continuity of educational issues and their practical application in the classroom. Aspiring teachers enter the classrooms with an innate optimism, and the challenge of The American Teacher is to engage them and to provide meaningful direction to channel their idealism. By reconnecting individuals with their society, community, and workplace, this engaging text provides education students with a grounding in their profession and an understanding of how important social and political issues affect educational practice.

Crisis in the Classroom Charles E. Silberman, 1971 In this bold new book, the result of a three-and-a-half-year study commissioned by the Carnegie Corporation of New York, Charles E. Silberman examines the problems that beset American education with the same intelligence, compassion, and uncompromising honesty that marked his award-winning best seller *Crisis in Black and White*. Anyone who is concerned with the nation's public schools and with its colleges and universities will be disturbed by the picture of current practice which Mr. Silberman paints in vivid and painful detail. Many will agree with his insistence that it is not enough merely to ask, How can we bring the worst

institutions up to the level of the best?--For all too often, the best is simply not good enough.--Jacket.
