Start with a Scribble Quentin Blake, John Cassidy, 2020-08-25 Just start with a scribble! Start with a Scribble will banish your inner critic and kick-start your inner genius, as you learn to draw with a little how-to and a lot of just-do. An artist-quality pen and watercolor pencils (red and black) are included. Inside, you'll find: Prompts to inspire you (e.g., "emotional rabbits") Doodles to finish ("Mrs. Thudkins takes her floppaterasis for a walk") Techniques to try (only when the mood strikes you), from shading to perspective And plenty of wide-open space to play around in. We're much less interested in the appearance of something than in the something itself. So, when you've settled on your subject (a monster? a cockatoo?), first figure out what its essence should be (ferocious? bashful?) . . . and then, just toss that ball up (artistically speaking) and give it a good swat across the net. Voilà! You're an artist. Throughout, beloved illustrator Sir Quentin Blake shares sage advice, from "it's best to name your animal after you draw it" to "don't worry too much yet about ankles." The most important lesson? Let go and give in to your own creative spirit! Publisher's note: Start with a Scribble is an updated North American edition of Drawing for the Artistically Undiscovered (Klutz, 1999).

The Riverwomans Dragon Candace Robb, 2021-10-01 When the wise woman Magda Digby is suspected of murder, Owen Archer sets out to prove her innocence in this intricately plotted medieval mystery. May, 1375. Owen Archer returns from London to find York in chaos. While the citizens are living in terror of the pestilence which is spreading throughout the land, a new physician has arrived, whipping up fear and suspicion against traditional healers and midwives. With the backing of the new archbishop, he is especially hostile towards Magda Digby, the wise woman who has helped and healed the people of York for many years. At the same time, Magda is uneasy about the arrival of two long-lost kinsfolk. Though they say they are seeking her help, she senses a hidden agenda. Magda's troubles deepen when she discovers a body in the river near her home – and finds herself under suspicion of murder. Days later, fire rips through a warehouse in the city. Amongst the charred debris lies the body of a man – not burned, but stabbed in the back. Could there be a connection to the corpse in the river? Determined to prove Magda's innocence, Owen sets out to find answers – but the more he uncovers, the deeper the mystery becomes . . .

How to Raise a Feminist Son Sonora Jha, 2021-04-06 This book is a true love letter, not only to Jha's own son but also to all of our sons and to the parents--especially mothers--who raise them." —Ijeoma Oluo, author of So You Want to Talk About Race and Mediocre Beautifully written and deeply personal, this book follows the struggles and triumphs of one single, immigrant mother of color to raise an American feminist son. From teaching consent to counteracting problematic messages from the media, well-meaning family, and the culture at large, the author offers an empowering, imperfect feminism, brimming with honest insight and actionable advice. Informed by Jha's work as a professor of journalism specializing in social justice movements and social media, as well as by conversations with psychologists, experts, other parents and boys--and through powerful stories from her own life--How to Raise a Feminist Son shows us all how to be better feminists and better teachers of the next generation of men in this electrifying tour de force. Includes chapter takeaways, and an annotated bibliography of reading and watching recommendations for adults and children. A beautiful hybrid of memoir, manifesto, instruction manual, and rumination on the power of story and possibilities of family. —Rebecca Solnit, author of The Mother of All Questions

Schurman Rock Jeff Smoot, 2018-05-04 Part history, part biography, part climbing guide, Schurman Rock: A History & Guide describes the design and construction of Schurman Rock, the world's first artificial climbing wall, built in 1938-39 at Camp Long in Seattle, Washington. The book includes a history of the creation of Camp Long by William G. Long, a Superior Court judge, who seized the opportunity to turn an unused 68-acre tract of swampy forest land into a wilderness camp for youth, and a biography of Clark Schurman, a Scoutmaster and Chief Climbing Guide at Mount Rainier, who envisioned and then built his dream rock to provide a place to teach mountaineering skills to youth. Thousands of kids and adults, including Fred Beckey and Jim and Lou Whittaker, learned to climb on Schurman Rock over the past 80 years. In 1938, Schurman published an article describing 22 routes on the rock--short bits as he called them. This book expands on this with a guide to several boulder problems on the rock. Includes many historic photos and a foreword by Pacific Northwest climbing legend Jim Whittaker.

Starvation Heights Gregg Olsen, 2005-05-03 In this true story—a haunting saga of medical murder set in an era of steamships and gaslights—Gregg Olsen reveals one of the most unusual and disturbing criminal cases in American history. In 1911 two wealthy British heiresses, Claire and Dora Williamson, arrived at a sanatorium in the forests of the Pacific Northwest to undergo the revolutionary “fasting treatment” of Dr. Linda Burfield Hazzard. It was supposed to be a holiday for the two sisters, but within a month of arriving at what the locals called Starvation Heights, the women underwent brutal treatments and were emaciated shadows of their former selves. Claire and Dora were not the first victims of Linda Hazzard, a quack doctor of extraordinary evil and greed. But as their jewelry disappeared and forged bank drafts began transferring their wealth to Hazzard's accounts, the sisters came to learn that Hazzard would stop at nothing short of murder to achieve her ambitions.

Fair Food Oran B. Hesterman, 2012-06-05 Our food system is broken, and it's endangering what's most precious to us: our environment, our health, our soil and water, and our future. In recent years, a host of books and films have compellingly documented the dangers. But advice on what to do about them largely begins and ends with the admonition to “eat local” or “eat organic.” Longtime good food pioneer Oran Hesterman knows that we can't fix the broken system simply by changing what's on our own plates: the answer lies beyond the kitchen. In Fair Food he shares an inspiring and practical vision for changing not only what we eat, but how food is grown, packaged, delivered, marketed, and sold. He introduces people and organizations across the country who are already doing this work in a number of creative ways, and provides a wealth of practical information for readers who want to get more involved.

Mama Doc Medicine Wendy Sue Swanson, 2014 Presents evidence-based advice on raising children, enhancing a collection of the author's blog posts with statistics, charts, and summaries to discuss four themes--prevention, social-emotional support, immunizations, and work-life balance.--

Vertical Living Robert Klanten, Elli Stuhler, Gestalten, 2021 Mass urbanization. Population growth. All happening faster than we can build for. As global populations are projected to shift to 80-90% urban in the next 30 years, architects are faced with a growing challenge: how to accommodate all this growth in limited space? At the same time, movements around downsizing and living with less are redefining how we live. Vertical Living explores the future of residential architecture in growing cities. The book looks at ingenious architectural solutions: impossibly skinny houses wedged into narrow plots, spacious homes built into neglected infill sites and comfortable homes created in tiny spaces. By combining inspirational projects, in-depth features and engaging profiles of architects around the world, Vertical Living will offer a new way of looking at how we live in the built environment.

Napoli Super Modern Maxime Enrico, Gianluigi Freda, Irene Lettieri, Andrea Maglio, 2021-02-15 This richly illustrated book is a monument to modern urban construction in Naples. It features some fifty new photos by celebrated French photographer Cyrille Weiner as well as historic images and drawings of important architectonic details, and an atlas of eighteen significant buildings dating from 1930-1960 illustrated with site and floor plans, elevations, and sections. It reveals how this southern Italian metropolis developed its own form of modernism, one that combined Mediterranean culture with local materials and a strong internationalist spirit. The topical essays and concise descriptions of the documented buildings, together with the lavish illustrations make for a hugely attractive and lively portrait of Naples. This fascinating city is both famous and infamous--but its

qualities and individuality in terms of architecture and urban development really should be better known.

Diversity, Equity, and Inclusion Caprice D. Hollins, Ilsa M. Govan, 2015 Facilitating conversations about race often involves tension, as both the facilitators and participants bring emotional experiences and their deeply held values and beliefs into the room. *Diversity, Equity and Inclusion: Strategies for Facilitating Conversations on Race* guides facilitators through a process of becoming comfortable with the discomfort in leading conversations about racism, privilege and power. This book walks you through the important steps to create a foundation where participants feel brave enough to take risks and share their stories and perspectives. It guides you through strategies for engaging participants in courageous conversations with one another in ways that don't shame and blame people into understanding. This book is a useful tool for individuals, organizations and college professors who are interested in learning techniques for guiding their audience through dialogue whereby they become open to listening to one another for understanding rather than holding on to old beliefs and maintaining a posture of defense. Readers will learn how the dynamics of race show up in cross cultural spaces, including the unique challenges faced by facilitators of color and white facilitators. In addition, we explore how to identify and counter white privilege in the dialogue between participants. Both novice and experienced facilitators will learn helpful strategies for leading conversation that result in people recognizing their role as change agents in ending oppression.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
