Oil and Oilseed Processing Tomás Lafarga,Gloria Bobo,Ingrid Aguiló-Aguayo,2021-04-09 Oil and Oilseed Processing The latest information available on oil and oilseed processing Oil and Oilseed Processing offers a comprehensive text that explores both the conventional and novel “green” extraction methods used to extract oils from seeds. The authors—noted experts on the topic—examine the positive aspects of operations in processing oil and oilseeds and present the processing concepts, principles, effects on quality, as well as the stability characteristics, limitations, and challenges. Due to the economic implications associated with the overproduction of seed oils, the book includes pertinent information on vegetable and animal-derived oils for industrial applications. The authors also explore recent applications and future perspectives for vegetable and animal oils use in the food and non-food industry. Safety concerns regarding oil and oilseed processing and waste valorisation are also covered in-depth. This important guide: Explores the traditional and new extraction methods used to extract oils from seeds Contains the most up-to-date insight into oil and oilseed processing Focuses on the areas of oil processing, safety, quality, and nutritional evaluation Written for food scientists and professional food technologists, Oil and Oilseed Processing is the only book on the market that contains the most recent information on all aspects of oil and oilseed processing.

The Black Experience and Navigating Higher Education Through a Virtual World Hairston, Kimetta R.,Edmonds, Wendy M.,Clark, Shanetia P.,2021-06-25 The treasure of the Black experience at a Historically Black College/University (HBCU) is that it offers a personal and intimate experience rooted in Black heritage that cannot be found at other institutions. On campus, face-to-face instruction and activities focused on addressing issues that plague the Black community are paramount. This provides students with small classroom environments and the personal support from administrators, faculty, and staff. In March 2020, the Black experience was interrupted when a global pandemic forced governors to declare states of emergencies and mandate stay-at-home orders. The stay-at-home orders forced universities to transition into fully remote environments. Doing so heightened an array of emotions compounded by the reality of previously recognized disparities in resources and funding amongst higher education institutions. As a result of this abrupt transformation, the HBCU experience was impacted by positive and negative implications for Black people at the campus, local, state, and national levels. The Black Experience and Navigating Higher Education Through a Virtual World explores the reality of the Black experience from various perspectives involving higher education institutions with a focus on HBCUs. The book provides an overview and analysis of a virtual experience that goes beyond the day-to-day technological implications and exposes innovative ideas and ways of navigating students and faculty through a remote world. It focuses on heightening the awareness of disparities through the Black experience in a virtual environment, provides guidance on transitioning to fully remote environments, examines leadership dynamics in virtual environments, analyzes mental health balance, and examines implications on the digital divide. Covering topics such as online course delivery, self-health, and social justice, this book is essential for graduate students, academicians, diversity officers in the academy, professors, and researchers.

Mental Health and Well-being Interventions in Sport Gavin Breslin,Gerard Leavey,2019-01-14 Mental health within elite sport has traditionally been ignored, but recent research has shown that competitive sport can at times seriously undermine mental health and that athletes are exposed to specific stressors that hinder their mental health optimisation. Mental Health and Well-being Interventions in Sport provides an indispensable guide for researchers and practitioners wanting to understand and implement sport-based intervention processes. This important book adopts an evidenced based approach, discussing the context of the intervention, its design and implementation, and its evaluation and legacy. With cases on depression, eating disorders, and athletic burnout, the book is designed to provide practitioners, policy makers and researchers with a cutting-edge overview of the key issues involved in this burgeoning area, while also including cases on how sport itself has been used as a method to improve mental health. Written for newcomers and established practitioners alike, the text is an essential read for researchers and practitioners in better understanding the sport setting-based intervention processes through presenting current research, theory and practice, applicable in a variety of sports settings and contexts.

India–EU People Mobility Rupa Chanda,Pralok Gupta,2015-12-10 This book provides an overview of the trends and characteristics of mobility between India and the EU from an historical (diaspora), economic (trade and investment) and regulatory (immigration) perspective. It also analyses the movement of professionals in selected sectors and occupations, such as IT, architecture, engineering and legal services, as well as student mobility between the two regions. The book discusses sector-specific as well as cross-cutting factors that shape the different types of mobility between the EU and India, the regulatory and other constraints to these migration flows, their impact and contribution on both sides, and the associated sensitivities and concerns. Drawing upon the analysis of these different types of mobility and the associated challenges, the book highlights how such mobility could be facilitated and managed through bilateral discussions between India and the EU, under formal as well as other arrangements.
