Handbook of Research on the Impact of Fandom in Society and Consumerism Wang, Cheng Lu,2019-10-25 Fans of specific sports teams, television series, and video games, to name a few, often create subcultures in which to discuss and celebrate their loyalty and enthusiasm for a particular object or person. Due to their strong emotional attachments, members of these fandoms are often quick to voluntarily invest their time, money, and energy into a related product or brand, thereby creating a group of faithful and passionate consumers that play a significant role in multiple domains of contemporary culture. The Handbook of Research on the Impact of Fandom in Society and Consumerism is an essential reference source that examines the cultural and economic effects of the fandom phenomenon through a multidisciplinary lens and shapes an understanding of the impact of fandom on brand building. Featuring coverage on a wide range of topics such as religiosity, cosplay, and event marketing, this publication is ideally designed for marketers, managers, advertisers, brand managers, consumer behavior analysts, product developers, psychologists, entertainment managers, event coordinators, political scientists, anthropologists, academicians, researchers, and students seeking current studies on the global impact of this particularly devoted community.

Intergenerational Conflict and Authentic Youth Experience Barney Langford,2024-04-01 This book explores how the youth experience, viscerally felt and deeply ingrained at a time of substantial physical, psychological and emotional changes, serves to authenticate that youth experience to the exclusion of that of ensuing youth generations. Using Cohen's concept of moral panic to frame the intergenerational conflict, notions of generational exclusivity and authenticity are explored through Bourdieu's concept of habitus – how each generation privileges its own youth experience as the 'standard' by which other youth generations can be judged. Shared authenticated 'generational understandings' act as the benchmark by which ensuing youth generations can be assessed and found wanting. Intergenerational conflict has been brought into sharp focus by the emergence of the Millennial generation, digital natives, with their obsession with digital technology and particularly mobile phones. The book will be of interest for the field of youth studies in general, particularly upper-level undergraduate youth studies courses and postgrads and social scientists. In addition, it will be of interest for scholars interested in the work of Pierre Bourdieu and Stanley Cohen and subject areas: intergenerational conflict, social change, popular culture, music, media and cultural studies, and social theory.

A Brief History of Chinese Fiction Lu Hsun,2000-12 Lu Hsun, pioneer and standard-bearer of modern Chinese literature, wrote this book during the early twenties. It is a study of the historical development of Chinese fiction from early myths and legends down to well-developed long novels written at the end of the Ching Dynasty.The characteristics of various forms of fiction through the centuries, the development of these forms and their influence on each other are lucidly presented, while such major works as the novels Hung Lou Meng (A Dream of Red Mansions) and Shue Hu Chuan (Water Margin) are reviewed in detail.Chinese fiction had its roots in story telling, and the feudal ruling class despised folk literature of this kind. The May 4th Movement of 1919 dealt a mortal blow to the feudal forces in Chinese culture. Then the study of this form of literature began to make headway, Lu Hsun being one of the first to carry out research in this field.This book, the earliest systematic study of the history of Chinese fiction by a Chinese writer, still exercises a great influence among Chinese scholars.This English translation is illustrated with reproductions of early Chinese woodcuts.
