This accessible book—the first of its kind—offers concise explanations of key jewelry terms. The fascination with personal adornment is universal. It is a preoccupation that is primal, instinctive, and uniquely human. Jewelry encompasses a seemingly endless number of ornaments produced across time and in all cultures. This volume, geared toward jewelry makers, scholars, scientists, students, and fashionistas alike, begins with a lively introduction that offers a cultural history of jewelry and its production. The main text provides information on the most common, iconic, and culturally significant forms of jewelry and also covers materials, techniques, and manufacturing processes. Containing more than eighty color illustrations, this guide will be invaluable to all those wishing to increase their understanding and enjoyment of the art of jewelry.

Diamonds Penny Proddow, Marion Fasel, 1996 Bernard Williams is one of the most influential figures in recent ethical theory, where he has set a considerable part of the current agenda. In this collection, a distinguished international team of philosophers who have been stimulated by Williams' work give new responses to it. The topics covered include equality, consistency, comparisons between science and ethics, integrity, moral reasons, the moral system, and moral knowledge. Williams himself then provides a substantial reply, which in turn shows both the current directions of his own thought and also his present view of his earlier work (such as that on utilitarianism).

Jewelry & Gems The Buying Guide Antoinette Matlins, 2012-12-06 to this edition In working with my own clients to acquire gemstones and jewelry since this book was first published in 1984, they have pointed out that most people buy jewelry and not gemstones. Because the book offers so much practical advice and money-saving tips about buying jewelry, they urged me to change the title. So, in this edition The Complete Guide to Buying Gems has been changed to Jewelry & Gems: The Buying Guide. Consumer and professional response to the book has been very gratifying. Almost 14,000 hardcover copies are in circulation. We have received hundreds of letters, phone calls and in-person comments about the helpfulness and interesting information it provides. We thank you for encouraging us to make the book more widely available by bringing out this softcover edition. We have taken the opportunity of this softcover edition to update the price guides for diamonds and colored gemstones and, in light of the increase in both the popularity and price of pearls, to add a price guide for them in the Guide to Popular Gems and Their Prices. Also, we want to take this opportunity to comment further on gem invest ment, taking into account major developments since the original manuscript was written in 1980.

Jewels by JAR Adrian Sassoon, Joel Arthur Rosenthal, 2013 Called the Fabergé of our time by Diane von Furstenberg, Joel A. Rosenthal, who works in Paris under the name JAR, is one of the most acclaimed jewellery designers of the past thirty years. JAR is known for his use of precious and semi-precious stones resplendent with myriad shades of vibrant colour and set in organic shapes: one brooch, for instance, features lifelike petals in subtly differentiated hues, made from a thousand pavé sapphires and amethysts. The New York Times has described his jewellery as belligerent, stubborn, audacious, funny, contradictory, while JAR himself has characterised his work as somewhere between geometry and a bouquet of flowers. This book, featuring nearly 70 pieces from throughout JAR's career, provides a concise, accessible, elegantly designed retrospective of the best of his jewellery creations, and is the only book of its kind on his work available in English.

Stoned Aja Raden, 2015-12-01 As entertaining as it is incisive, *Stoned* is a raucous journey through the history of human desire for what is rare, and therefore precious. What makes a stone a jewel? What makes a jewel priceless? And why do we covet beautiful things? In this brilliant account of how eight jewels shaped the course of history, jeweler and scientist Aja Raden tells an original and often startling story about our unshakeable addiction to beauty and the darker side of human desire. What moves the world is what moves each of us: desire. Jewelry—which has long served as a stand-in for wealth and power, glamor and success—has birthed

cultural movements, launched political dynasties, and started wars. Masterfully weaving together pop science and history, *Stoned* breaks history into three categories—Want, Take, and Have—and explains what the diamond on your finger has to do with the GI Bill, why green-tinted jewelry has been exalted by so many cultures, why the glass beads that bought Manhattan for the Dutch were initially considered a fair trade, and how the French Revolution started over a coveted necklace. Studded with lively personalities and fascinating details, *Stoned* tells the remarkable story of our abiding desire for the rare and extraordinary.

Beginning with the state of royal jewels today, *Queens' Jewels* looks back in time to chronicle the history—sometimes glamorous, sometimes gruesome—of the glittering regalia of monarchs in Russia, Iran and all across Western Europe. From the Bonapartes to the Romanovs to the Windsors, *Queens' Jewels* recreates a mythical universe of which these jewels are the most powerful symbol, the silent witness of times of glory and times of tragedy.

The Thing of Mine I Have Loved Best Cynthia Hahn, Paul Holberton Publishing, 2018-04-19 This book studies forty-six pieces of European jewelry ? pendants, reliquaries, amulets, and talismans ? from the eighth to the eighteenth century. The title ?The thing of mine I have loved the best? comes from the medieval will of an English duchess who bequeaths a reliquary jewel to her son. It expresses the sentiment that jewels appealed (then, as well as now) to the truest and strongest emotions. This book concerns objects that were ?meaningful? jewels, a term we choose to designate a wide range of precious wearable objects that had particular meaning.
