

Photographyc 363

Charles Blaney Breed,George Leonard Hosmer

Spiders of the Eastern United States W. Mike Howell, Ronald L. Jenkins, 2004 Spiders of the Eastern United States: A Photographic Guide fills the void for a photographic identification guide to commonly encountered eastern U.S. spiders. Although not a taxonomic key or scientific treatise, this welcome book contains a wealth of information not seen elsewhere. After a brief introduction to spider anatomy, silk and webs, spider ecology, and classification, the book covers descriptions of families and common species. For each family, there are representative species with identifying characteristics, ecology and behavior, size, and one or more photos are provided. 363 pages, color photos throughout.

Photography on the Color Line Shawn Michelle Smith,2004-06-07 Through a rich interpretation of the remarkable photographs W. E. B. Du Bois compiled for the American Negro Exhibit at the 1900 Paris Exposition, Shawn Michelle Smith reveals the visual dimension of the color line that Du Bois famously called “the problem of the twentieth century.” Du Bois’s prize-winning exhibit consisted of three albums together containing 363 black-and-white photographs, mostly of middle-class African Americans from Atlanta and other parts of Georgia. Smith provides an extensive analysis of the images, the antiracist message Du Bois conveyed by collecting and displaying them, and their connection to his critical thought. She contends that Du Bois was an early visual theorist of race and racism and demonstrates how such an understanding makes the important concepts he developed—including double consciousness, the color line, the Veil, and second sight—available to visual culture and African American studies scholars in powerful new ways. Smith reads Du Bois’s photographs in relation to other turn-of-the-century images such as scientific typologies, criminal mugshots, racist caricatures, and lynching photographs. By juxtaposing these images with reproductions from Du Bois’s exhibition archive, Smith shows how Du Bois deliberately challenged racist representations of African Americans. Emphasizing the importance of comparing multiple visual archives, *Photography on the Color Line* reinvigorates understandings of the stakes of representation and the fundamental connections between race and visual culture in the United States.

Adobe Photoshop Elements 9 for Photographers Philip Andrews,2017-10-03 Completely updated for the latest version of Adobe Photoshop Elements, Philip Andrews returns with his comprehensive guide to this popular software package. Akin to Martin Evening's bestselling Photoshop title, every feature and function of Elements is covered here in step-by-step detail. Accompanied by helpful screenshots and colorful images, highlighted in an updated and modernized design, this versatile guide is perfect if you're a first time user wanting to dip your toe into the world of digital image adjustment, or a seasoned pro wanting to hone your skills for perfectly fine tuned images. The more advanced projects, such as completing a photo book from scratch, stitching together multiple images to create fantastic panoramas, working with raw files, and more, are perfect if you want to push your images even further for amazing results from this fabulous software package. The easy to follow tutorials are complemented by general photography tips and tricks to give your images that masterful edge. Truly geared toward the photographer's needs, both pre and post-capture, this essential guide is a perfect companion for anyone wanting to take their images a step further with Elements.

A Photographic History of North Carolina in the Civil War Richard B. McCaslin,1997 Centering on the common soldier, Portraits of Conflict: A Photographic History of North Carolina in the Civil War, the sixth in the University of Arkansas Press's award-winning series, tells the stories of the actual people, rich and poor, whose lives were changed forever by the nation's great drama.
