*Hit So Hard* Patty Schemel, 2017-10-31 A stunningly candid portrait of the Seattle grunge scene of the '90s and a memoir of an addict during the last great era of rock 'n' roll excess, by Hole drummer Patty Schemel. Patty Schemel's story begins with a childhood surrounded by the AA meetings her parents hosted in the family living room. Their divorce triggered her first forays into drinking at age twelve and dovetailed with her passion for punk rock and playing the drums. Patty's struggles with her sexuality further drove her notoriously hard playing, and by the late '80s she had focused that anger, confusion, and drive into regular gigs with well-regarded bands in Tacoma, Seattle, and Olympia, Washington. She met a pre-Nirvana Kurt Cobain at a Melvins show, and less than five years later, was living with him and his wife, Hole front-woman Courtney Love, at the height of his fame and on the cusp of hers. As the platinum-selling band's new drummer, Schemel contributed memorable, driving beats to hits like *Beautiful Son*, *Violet*, *Doll Parts*, and *Miss World*. But the band was plagued by tragedy and heroin

addiction, and by the time Hole went on tour in support of their ironically titled and critically-acclaimed album *Live Through This* in 1994, both Cobain and Hole bassist Kristen Pfaff had died at the age of 27. With surprising candor and wit, Schemel intimately documents the events surrounding her dramatic exit from the band in 1998 that led to a dark descent into a life of homelessness and crime on the streets of Los Angeles, and the difficult but rewarding path to lasting sobriety after more than twenty serious attempts to get clean. *Hit So Hard* is a testament not only to the enduring power of the music Schemel helped create but an important document of the drug culture that threatened to destroy it.

**Historical Seismology** Julien Fréchet, Mustapha Meghraoui, Massimiliano Stucchi, 2008-08-22 Modern seismology has faced new challenges in the study of earthquakes and their physical characteristics. This volume is dedicated to the use of new approaches and presents a state-of-the-art in historical seismology. *Marx for the 21st Century* Hiroshi Uchida, 2004-08-02 This groundbreaking collection surveys current research on Marx and Marxism from a variety of perspectives. Setting forward an unconventional range of questions for discussion, the book develops key ideas, such as the theory of history, controversies about justice and the latest textual scholarship on *The German Ideology*. Written by Japanese scholars, the volume affords western readers a glimpse for the first time, of the results of many years' debates and discussion. Following the long tradition of Japanese interest in Marx, the book draws on the relationship between that and radical changes in local political context, as well as the economic and political development represented by Japan. Over the course of the chapters, Marx is rescued from 'orientalism', evaluated as a socialist thinker, revisited as a theorist of capitalist development and heralded as a necessary corrective to modern economics. Of particular interest are the major scholarly revisions to the 'standard' historical accounts of Marx's work on the *Communist Manifesto*, his relationship to the contemporary theories of Louis Blanc and P.J. Proudhon, and new information about how he and Engels worked together. This landmark work opens up a world of Japanese critical engagement and lively scholarship that will appeal to anyone interested in Marx and Marxism.

**Marx's 'Grundrisse' and Hegel's 'Logic' (RLE Marxism)** Hiroshi Uchida, 2015-04-17 Marx's *Grundrisse* is acknowledged as the vital link between Marx's early and late work. It is also a crucial text in elucidating Marx's debt to the idealist philosopher G.W.F. Hegel. This book, first published in 1988, is the first full-length study of that relationship, in a thorough textual analysis which makes the connections explicit and also the *Grundrisse's* relations to the works of Adam Smith and Aristotle. This book argues that Marx's critique of

political economy, and his critique of Hegel, are double interrelated. Not only did Marx adapt Hegelian logic in order to analyse the economic categories crucial to modern society but it is argued that those logical categories were themselves seen as reflections of the productive processes of contemporary commercial society. Uchida reveals a conceptual structure common to the apparently rarefied world of Hegelian conceptual logic and to the supposedly common-sensical world of economic science. Demonstrating this is a considerable achievement, and it allows us to consider precisely what is valuable today in Marx's critical commentary on this conceptual structure and on the type of society in which it is manifested. Uchida's subject, like Marx's, is 'the force of capital on modern life'.

**Karl Marx and the Future of the Human** Cyril Smith, 2005-02-01 Cyril Smith shows that Marx developed a far richer and liberatory vision of humanity and the alternative to capital than that which has characterized his followers, and he makes a powerful argument that it is essential to return to Marx's original body of thought in order to reconstitute a viable critique of existing capitalist society.

*Toward a Radical Metaphysics of Socialism* Katerina Kolozova, 2015 Departing from the conventional readings of Karl Marx's *Capital* and other of his works, by way of François Laruelle's radicalization of concepts, Katerina Kolozova identifies a theoretical kernel in Marx's thought whose critical and interpretative force can be employed without reference to its subsequent interpretations in the philosophical mainstream. The latter entails a process of abstracting a philosophical legacy - or rather, of putting it in brackets - and then codifying a history of a learned interpretation established in supposed fidelity to the theoretical project of a master. Interpreting the master implies a mastery of doctrinal tools, which results in establishing a catechism of the Logos of the Master. And this catechism interferes, Kolozova argues, with more direct encounters with Marx's writings. As we know, Marx's rigorously descriptive language unravels the radical core of capitalist economic processes and, through that unraveling, also reveals capitalism's necessary exploitation and subjugation of human labor. *Toward a Radical Metaphysics of Socialism* attempts to recuperate and emancipate the notion of metaphysics in this scenario by virtue of radicalizing thought's encounter with the Real. Kolozova argues that this metaphysical drama is at the origin of the social and economic injustices of contemporary global economic-political realities, and she illustrates this state of affairs in discussions of the problem of wage labor, automated speculation as the core of late capitalism, the post-2008 financial crisis, the status of technology in late capitalism, sexual difference and gender, and the human and non-human body's subjugation capitalist automation
