Sustainability of Biofuel Production from Oil Palm Biomass Keat Teong Lee, Cynthia Ofori-Boateng, 2013-07-30 This book evaluates and discusses the main sustainability challenges encountered in the production of biofuel and bio-products from oil palm biomass. It starts off with the emphasis on oil palm production, oil palm products recovery and oil palm wastes utilization. The simultaneous production of these bio-products for sustainable development is discussed. This is followed by the key factors defining the sustainability of biofuel and bio-product production from oil palm biomass. The environmental issues including ecological, life cycle assessment and environmental impact assessment of oil palm plantation, milling and refining for the production of biofuels and bio-products are presented. Socio-economic and thermodynamic analysis of the production processes are also evaluated using various sustainability assessment tools such as exergy. Lastly, methods of improving biofuel production systems for sustainable development are highlighted.

Asian American Literature in Transition, 1930-1965: Volume 2 Victor Bascara, Josephine Nock-Hee Park, 2021-06-17 Leading scholars provide illuminating and engaging perspectives on a long neglected, yet incredibly eventful, period (1930-1965) of Asian American literature.

Masters Theses in the Pure and Applied Sciences W. H. Shafer, 1982-02-01

Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) * at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 25 (thesis year 1980) a total of 10,308 theses titles from 27 Canadian and 214 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. While Volume 25 reports theses submitted in 1980, on occasion, certain universities do report theses submitted in previous years but not reported at the time.

Evoking a Sense of Place Joann P. Krieg, 1988

The Frontiers of the Roman Empire David Breeze, 2011-12-13 "Practically all new information on the greatest empire of all and how it controlled and policed its frontiers. Absolutely fascinating!"—Books Monthly At its height, the Roman Empire was the greatest empire yet seen with borders stretching from the rain-swept highlands of Scotland in the north to the sun-scorched Nubian desert in the south. But how were the vast and varied stretches of frontier defined and defended? Many of Rome's frontier defenses have been the subject of detailed and ongoing study and scholarship. Three frontier zones are now UNESCO World Heritage sites (the Antonine Wall having recently been granted this status—the author led the bid), and there is growing interest in their study. This wide-ranging survey will describe the varying frontier systems, describing the extant remains, methods and materials of construction and highlighting the differences between various frontiers. Professor Breeze considers how the frontiers worked, discussing this in relation to the organization and structure of the Roman army, and also their impact on civilian life along the empire's borders. He then reconsiders the question of whether the frontiers were the product of an overarching Empire-wide grand strategy, questioning Luttwak's seminal hypothesis. This is a detailed and wide-ranging study of the frontier systems of the Roman Empire by a leading expert. Intended for the general reader, it is sure also to be of great value for academics and students in this field. The appendixes will include a brief

guide to visiting the sites today. "The result of this book-crafting care and Breeze's erudition is a near-perfect example of specialized military history done for a popular audience." –Open Letters Monthly

Modernization of Oil and Gas Reporting (Us Securities and Exchange Commission Regulation) (Sec) (2018 Edition) The Law Library, 2019-01-28 The Law Library presents the complete text of the Modernization of Oil and Gas Reporting (US Securities and Exchange Commission Regulation) (SEC) (2018 Edition). Updated as of May 29, 2018 The Commission is adopting revisions to its oil and gas reporting disclosures which exist in their current form in Regulation S-K and Regulation S-X under the Securities Act of 1933 and the Securities Exchange Act of 1934, as well as Industry Guide 2. The revisions are intended to provide investors with a more meaningful and comprehensive understanding of oil and gas reserves, which should help investors evaluate the relative value of oil and gas companies. In the three decades that have passed since adoption of these disclosure items, there have been significant changes in the oil and gas industry. The amendments are designed to modernize and update the oil and gas disclosure requirements to align them with current practices and changes in technology. The amendments concurrently align the full cost accounting rules with the revised disclosures. The amendments also codify and revise Industry Guide 2 in Regulation S-K. In addition, they harmonize oil and gas disclosures by foreign private issuers with the disclosures for domestic issuers. This ebook contains: - The complete text of the Modernization of Oil and Gas Reporting (US Securities and Exchange Commission Regulation) (SEC) (2018 Edition) - A dynamic table of content linking to each section - A table of contents in introduction presenting a

The Creation of Sustainable Value Guy McManus,Marcus Powe,2009 To most people the term 'value' only relates to money. Value is much more than this and often occurs at three different levels - the individual, the organisation and the community. Creating sustainable value is the process of linking these three levels. The 'glue' that holds them together comprises the creative mindset and the tools of innovation, and when linked they can create enduring sustainable value.--P. 4.

Teacher Leadership and Professional Development Alex Alexandrou,Sue Swaffield,2016-05-06 Interest in and knowledge of leadership and learning, separately and together, is an international and continuing phenomenon. This book adds to a somewhat under-researched aspect of the field. It focuses both on a particular form of leadership – teacher leadership, and on a particular form of learning – professional development. It considers the connection between teacher leadership and professional development and the first chapter relates this connection to a ‘Leadership for Learning’ conceptual framework, developed through an international, three-year project. The book’s chapters explore teacher leadership and professional development from a number of perspectives, giving rise to three points of particular significance. Firstly the chapters show that, either by accident or design, there is a growing

cadre of teacher leaders emerging from a multitude of professional development activities and initiatives. Secondly, a number of new conceptual frameworks are put forward, alongside the adaption and development of extant ones that add to the ever-increasing theorisation of educational leadership and professional development literature. Thirdly, the chapters provide evidence of the connections between leadership and learning as conceptualised in the 'Leadership for Learning' framework. This book was originally published as a special issue of Professional Development in Education.
