Fifty Cup Finals Nick Collins, 2018-05-01 For more than 20 years Nick Collins was one of the best-known faces at Sky Sports News, bringing us the fortunes of the England football team at World Cups and European Championships. He was also the live touchline reporter from 1992-97 as Sky Sports stunned the football world by winning the TV broadcast rights to the newly formed Premier League. Fifty Cup Finals is the story of Nick's life in football - from being on the Tottenham bus as it left Wembley with the FA Cup to visit Paul Gascoigne in hospital, through to the early days of the Premier League and beyond as he witnessed the drama first-hand at 11 major tournaments, nearly 300 England games, 25 FA Cup finals, plus Champions League, World Cup and Euro finals. Nick also recalls being with George Best in Manchester as United won the first Premier League, getting the hairdryer treatment from Fergie, and falling off a TV platform live on air outside Wembley. Fifty Cup Finals chronicles an extraordinary period of change in English, European and world football.

Energy, Sustainability and the Environment Fereidoon P. Sioshansi, 2011-06-02 The complexity of carbon reduction and economic sustainability is significantly complicated by competing aspects of socioeconomic practices as well as legislative, regulatory, and scientific requirements and protocols. An easy to read and understand guide, Sioshansi, along with an international group of contributors, moves through the maze of carbon reduction methods and technologies, providing steps and insights to meet carbon reduction requirements and maintaining the health and welfare of the firm. The book's three part treatment is based on a clear and rigorous exposition of a wide range of options to reduce the carbon footprint Part 1 of the book, Challenge of Sustainability, examines the fundamental drivers of energy demand - economic growth, the need for basic energy services, and the interdependence of economic, political, environmental, social, equity, legacy and policy issues. Part 2 of the book, Technological Solutions, examines how energy can be used to support basic energy service needs of homes, commercial and industrial facilities and for other applications. Part 3 of the book, case studies, covers a number of innovative projects, initiatives, concepts or self-imposed targets in different parts of the world with the aim of significantly reducing energy use and carbon footprint of a company, a community, a city or an entire country. There was a widespread recognition among environmental engineers and energy economist of the importance of carbon reduction while sustaining the firm's economic growth. The only book to bring together both subjects into one easy to understand reference, Carbon Reduction and Economic Sustainability not only clearly explains which option has the lowest energy/carbon footprint but also which option would better suit the business in question. This includes carbon reduction for residential, transport, industrial and public sectors. The only book to clearly explain the economic and environmental engineering aspects of carbon reduction. Case studies taken from a number of international projects. Carbon reduction options for all sectors of society. The role of the planning system in carbon reduction.
