Environmental Regulation John F. McEldowney, Sharron McEldowney, 2014 Featuring an original introduction by the editors, this important collection of essays explores the main issues surrounding the regulation of the environment. The expert contributors illustrate that regulating the environment in the UK is conceptually complex, involves a diverse range of institutions, techniques and methodologies and crosses geographical and national boundaries. In the USA it is more formalised, juridical, adversarial and formally dependent upon legal rules. The articles highlight the fact that despite differences in the UK and the USA's regulatory styles, environmental regulation today has much in common with both traditions.

**Evangelical Dictionary of World Missions** A. Scott Moreau, 2000 The first comprehensive, one-volume reference work to consider the history of world missions and contemporary study of the subject from an evangelical perspective.

**The Wari Enclave of Espiritu Pampa** Brian S Bauer, Javier Fonseca Santa Cruz, 2020-12-31 The Wari State was the first expansionistic power to develop in the Andean highlands. Emerging in the area of modern Ayacucho (Peru) around AD 650, the Wari expanded to control much of the central Andes by the time of their collapse at AD 1000. This book describes the discovery and excavation (2010-2012) of a major new Wari site (Espiritu Pampa), located in the subtropical region of Vilcabamba (Department of Cuzco). While it was long believed that the Wari established trade networks between their highland capital and the Amazonian lowlands, the identification of a large Wari site in the Vilcabamba region came as a surprise to most Wari specialists. This book covers the first three years of excavations at the Wari site of Espiritu Pampa. It describes

the identification of a central plaza surrounded by a series of D-shaped structures, that are believed to be the loci of special activities for the Wari. It also describes the contents of more than 30 burials, many of which contained finely crafted silver, gold, bronze and ceramic objects.

*Joining in with the Spirit* Kirsteen Kim, 2012 *Joining in with the Spirit* makes the connection between mission as the work of mission agencies overseas and mission as the activity of a local church. It shows how, through the global flows of scholarship, missionary movements and migration, mission initiatives in different parts of the world impinge on the churches in Britain, which are but part of a world church. *Joining in with the Spirit* is an accessible introduction to mission studies - the history, theology and issues of mission, which is up-to-date and supported by contemporary scholarship. It also offers a theological framework for mission, which applies both globally and locally, to help the reader discern the movement of the Spirit of Christ among the many other spirits of this world. This text illustrates the impact of the 1910 Edinburgh world missionary conference and shows how the churches in Britain as a part of a much wider movement of the Spirit of Christ that is world Christianity.

**On Heaven's Doorstep** Andrea Jo Rodgers, 2018-05-01 *In Life or Death, There's Only One Guarantee—God Will Be There* Medical emergencies are among life's most unexpected and terrifying realities. The Idea of Communism Costas Douzinas, Slavoj Zizek, 2020-05-05 Do not be afraid, join us, come back! You've had your anti-communist fun, and you are pardoned for it-time to get serious once again!-Slavoj Zizek Responding to Alain Badiou's 'communist hypothesis', the leading political philosophers of the Left convened in London in 2009 to take part in a landmark conference to discuss the perpetual, persistent notion that, in a truly emancipated society, all things should be owned in common. This volume brings together their discussions on the philosophical and political import of the communist idea, highlighting both its continuing significance and the need to reconfigure the concept within a world marked by havoc and crisis.

**Dialectics of Nature** Friedrich Engels, 1960 Ever since Engels' arrival in London in 1870, he was keen to write a comprehensive work on science and dialectical materialism. The notes and studies for such a work make up the present volume, originally published in 1925. It is an essential read for all those who want to develop a deeper understanding of Marxist philosophy. With an introduction by Rob Sewell.

**The Struggle for Auto Safety** Jerry L. Mashaw, David L. Harfst, 2013-10-01 Combining superb investigative reporting with incisive analysis, Jerry Mashaw and David Harfst provide a compelling account of the attempt to regulate auto safety in America. Their penetrating look inside the National Highway Traffic Safety Administration (NHTSA) spans two decades and reveals the complexities of regulating risk in a free society. Hoping to stem the tide of rising automobile deaths and injuries, Congress passed the National Traffic and Motor Vehicle Safety Act in 1966. From that point on, automakers would build cars under the watchful eyes of the federal regulators at NHTSA. Curiously, however, the agency abandoned its safety mission of setting, monitoring, and enforcing performance standards in favor of the largely symbolic act of recalling defective autos. Mashaw and Harfst argue that the regulatory shift from rules to recalls was neither a response to a new vision of the public interest nor a result of pressure by the auto industry or other interest groups. Instead, the culprit was the legal environment surrounding NHTSA and other regulatory agencies such as the EPA, OSHA, and the Consumer Product Safety Commission. The authors show how NHTSA's decisions as well as its organization, processes, and personnel were reoriented in order to comply with the demands of a legal culture that proved surprisingly resistant to regulatory pressures. This broad-gauged view of NHTSA has much to say about political idealism and personal ambition, scientific commitment and professional competition, long-range vision and political opportunism. A fascinating illustration of America's ambivalence over whether government is a source of--or solution to--social ills, *The Struggle for Auto Safety* offers important lessons about the design and management of effective health and safety regulatory agencies today.

**Breakdown in Pakistan** Masooda Bano, 2012-04-25  
Thirty percent of foreign development aid is channeled through NGOs or community-based organizations to improve service delivery to the poor, build social capital, and establish democracy in developing nations. However, growing evidence suggests that aid often erodes, rather than promotes, cooperation within developing nations. This book presents a rare, micro level account of the complex decision-making processes that bring individuals together to form collective-action platforms. It then examines why aid often breaks down the very institutions for collective action that it aims to promote. Breakdown in Pakistan identifies concrete measures to check the erosion of cooperation in foreign aid scenarios. Pakistan is one of the largest recipients of international development aid, and

therefore the empirical details presented are particularly relevant for policy. The book's argument is equally applicable to a number of other developing countries, and has important implications for recent discussions within the field of economics.

*Aboriginal Religions in Australia* Françoise

Dussart, Howard Morphy, 2017-09-08 Over the last 25 years there has been an explosion of interest in the Aboriginal religions of Australia and this anthology provides a variety of recent writings, by a wide range of scholars. Australian Aboriginal Religions are probably the oldest extant religious systems. Over some 50,000 years they have coped with change and re-invented themselves in an astonishingly creative way. The Dreaming, the mythical time when the Ancestor Spirits shaped the territories of the Aborigines and laid down a moral and ritual law for their occupants, is the fundamental religious reality. It is the basis of the Aborigines's view of their land or country, kinship relationships, ritual and art. However, the Dreaming is not a static principle since it is interpreted in different ways, as in the extraordinary movement in contemporary indigenous painting, and in attempts at an accommodation with Christianity. The contributions of anthropologists, cultural historians, philosophers of religion and others are included in this anthology which not only guides readers through the literature but also ensures this still largely inaccessible material is available to a wider range of readers and non-specialist students and academics.

**Shattered, Broken Restored by Grace** Tracy

Liller, 2019-03-12 This book will have a wide range of interested readers. It has a strong God-faith based element for Christian bookstores, as well as the Amish community. It has a story line that will appeal to all ages and is written in an easy to understand format for young readers as well.

Many will relate to the traumatic auto accident while others empathize with the abusive background of the author. There will be those who have wronged others and seek forgiveness, and still others who have been wronged needing to forgive. The life lessons in this simple book far outreach what any of us can really foresee. Law enforcement officers will enjoy the realities of the job they are tasked with on a daily basis being portrayed, and courtroom employees will as well. Medical professionals will relate to the organized chaos of the trauma unit. Parents, grandparents, and children can all put themselves in the place of one losing a family member. People everywhere in every walk of life think "That could've been me" in many of the scenarios occurring in this book making it extremely relatable to everyone. The uplifting ending leaves its readers on an emotional high wishing to read it again and again.

*The Reign of Law* Paul W. Kahn, 1997-01-01 This is the first major work to apply to the rule of law the insights of modern cultural theory, ranging from Clifford Geertz to Michel Foucault. Starting from Thomas Paine's observation that in America, law is king, Paul Kahn asks: What are the elements of our belief in the rule of law? And what are the rhetorical techniques by which the courts maintain this belief? Kahn centers his exploration on the 1803 Supreme Court case of *Marbury v. Madison* - still the greatest of our constitutional cases. Kahn shows that *Marbury* is the judicial response to President Thomas Jefferson's belief that his election represented a Second American Revolution. Kahn uses the confrontation between president and Court to analyze the contrasting ways in which the revolutionary and the legal imaginations understand and give shape to political events. This contest continues today in the conflicting demands we make for a politics that preserves

the past yet celebrates popular innovation.

Administrative Law in the Political System Kenneth Warren, 2019-08-06 Emphasizing that administrative law must be understood within the context of the political system, this core text combines a descriptive systems approach with a social science focus. Author Kenneth F. Warren explains the role of administrative law in shaping, guiding, and restricting the actions of administrative agencies. Providing comprehensive coverage, he examines the field not only from state and federal angles, but also from the varying perspectives of legislators, administrators, and the public. Substantially revised, the sixth edition emphasizes current trends in administrative law, recent court decisions, and the impact the Trump administration has had on public administration and administrative law. Special attention is devoted to how the neo-conservative revival, strengthened by Trump appointments to the federal judiciary, have influenced the direction of administrative law and impacted the administrative state. *Administrative Law in the Political System: Law, Politics, and Regulatory Policy*, Sixth Edition is a comprehensive administrative law textbook written by a social scientist for social science students, especially upper division undergraduate and graduate students in political science, public administration, public management, and public policy and administration programs.
