Tractor Pull - Ecs Scott Webb, Joe Egli, 2004 As the sun drops low among the spokes of the Ferris wheel behind the grandstand, a particular smell overwhelms you-the mix of funnel cakes, diesel fuel, and the giddy expectation of an anxious crowd\133From the beginning, the sport has had a calling all its own. While cars dispute the issue of speed over stretches of a quarter-mile or hundreds of miles, nothing compares to the modern tractor pull's test of brute force. For pulling fans, this spectacle feeds an addiction like no other. *Tractor Pull!* gives readers an inside look at the sport of tractor pulling from its earliest days to today's monster pulling machines. Photography from the National Tractor Pullers Association (NTPA), *Full Pull* magazine's Photo Joe Egli, the American Tractor Pullers Association (ATPA), and the Championship Tractor Pull at the National Farm Machinery Show includes pulling greats Danny Dean, the Banter brothers, Bruce Hutcherson, Art Arfons, Esdon Lehn, and Tim Engler-to name a few. Whether you live your life 300 feet at a time or have yet to feel the adrenaline rush of a pull, you'll experience the power and excitement of the sport through the pages of *Tractor Pull!*

A History of Public Health George Rosen, 2015-04 For seasoned professionals as well as students, A History of Public Health is visionary and essential reading.

History of Public Health in New York City, 1625-1866 John Duffy, 1968-10-15 Traces the development of the sanitary and health problems of New York City from earliest Dutch times to the culmination of a nineteenth-century reform movement that produced the Metropolitan Health Act of 1866, the forerunner of the present New York City Department of Health. Professor Duffy shows the city's transition from a clean and healthy colonial settlement to an epidemic-ridden community in the eighteenth century, as the city outgrew its health and sanitation facilities. He describes the slow growth of a demand for adequate health laws in the mid-nineteenth century, leading to the establishment of the first permanent health agency in 1866.

The Seven Mysteries of Life Guy Murchie, 1999 All life in all worlds -this was the object of the author's seventeen-year quest for knowledge and discovery, culminating in this book. In a manner unmistakably his own,

Murchie delves into the interconnectedness of all life on the planet and of such fields as biology, geology, sociology, mathematics, and physics. He offers us what the poet May Sarton has called a good book to take to a desert island as sole companion, so rich is it in knowledge and insight.

The Search for Peace D. W. Bowett,2019-09-24 Using authoritative extracts from the relevant and important sources at the time, this volume, originally published in 1972, deals with the problems and difficulties of maintaining peace in the world. The control of the use of force remains the most intractable, and yet the most important, problem in international relations. Although the antagonists change, antagonism appears to be almost an inherent feature of inter-state relations and although global conflict has been avoided for the past quarter of a century, the risk is always present. The cost of such anarchy in international relations, measured in terms of human suffering and wastage of resources, is appalling. In this book, Dr Bowett looks at the need for peaceful settlement of international disputes, the peacekeeping role of the United Nations, aid to developing countries and disarmament, and suggests that the structure of international society based on the Sovereign State could be modified to lessen the risk of conflict. The extracts include statements by Khrushchev, Mao Tse-Tung, Che Guevara, Dag Hammarskjöld, U Thant, Ho Chi-Minh, and selections from many national and international documents.

Strengths in Diverse Families of Faith Taylor & Francis Group,2021-06-30
This book explores how religious families draw on their spiritual beliefs, religious practices, and faith communities to help them strengthen their marital relationships and their parenting. Using in-depth interviews from eight religious groups - Asian American Christian; Black Christian; Catholic and Orthodox Christian; Evangelical Christian; Jewish; Latter-day Saint; Mainline Protestant; and Muslim - the book uses the interviewees' own words to show how their religion impacts their lives and influences their relationships. The book also includes an introductory chapter which describes the study and the sample; a conceptual chapter which places the empirical chapters in theoretical context in sociological study of religious families; and a concluding chapter which describes how the editors and authors developed respect and admiration for religious cultures other than their own. Drawing on such a diverse group of religions in America, this book will be of interest to those studying individual religious groups, as well as wider

ecumenism and inter-religious dialogue. This book was originally published as a special issue of the Marriage and Family Review.

William and Lucy Angela Thirlwell, 2003-01-01 The marriage of William Michael Rossetti (1829-1919) and Lucy Madox Brown (1843-1894) united two of the most resonant Pre-Raphaelite family names. Their passionate and ultimately tragic relationship - described here for the first time - provides a fresh perspective on nineteenth-century marriage and on the private lives of eminent Victorians. Sibling of Dante Gabriel and Christina Rossetti, William was one of the original Pre-Raphaelite 'Brothers,' a Bohemian, radical author, poet, critic, artist, connoisseur, biographer, historian, and taxman. Lucy, the intense, intellectual daughter of Ford Madox Brown, was an ambitious artist and biographer of Mary Shelley in spite of struggling with tuberculosis for nearly a decade. Drawing on hundreds of previously unpublished sources and a wealth of new visual material (including art by William, Lucy, and others of their circle and striking contemporary

photographs), the book follows William and Lucy through their separate professional careers, marriage, continental travels, and Lucy's illness and death. At the crossover between art history, literary criticism, social history, and biography, the book rewrites Pre-Raphaelite history and brings to life two fascinating people who were both of their time and ahead of it.

Brass Valley Jeremy Brecher, Jerry Lombardi, Jan Stackhouse, 1982 For too many years American workers have been cut off from their own roots. When children go to school, they learn little about the people who work in factories and offices, their movements and their efforts for a better life. What is hidden from them is their own legacy, the heritage of culture and struggle handed on from other generations of working people. This book represents a new approach to history. It attempts to pass on that history from one group of workers to other workers, especially as workers and unions are at a crossroads, facing deteriorating conditions and even the permanent loss of jobs. But workers have faced these problems before, and surmounted them. This book can help all understand that our collective history helps us to face the challenges of the present and ones yet unknown of tomorrow. -- Publisher description.

Art of Ford Madox Brown Kenneth Bendiner, 2010-11-01 This is the first comprehensive history devoted to the art of Ford Madox Brown (1821-93), in which his paintings establish him as a major figure in the most important new art movement of Victorian England, Pre-Raphaelitism. The book presents a new explanation of the development and basic aims of Pre-Raphaelite art as a

whole and offers a revealing discussion of the power and importance of the humor and negative spirit that run throughout Brown's work. It also ties Brown's realist approach to British decorative taste at midcentury and redefines his place in the Aesthetic Movement, a cultural trend that dominated the latter half of the nineteenth century. In addition, the artist's socialist leanings and nationalistic tendencies, expressed in depictions of workers, children, women, and religious scenes, are set out more fully than in any previous literature on the artist.

Pre-Raphaelitism William Evan Fredeman, 1965

Ford Madox Brown and the Pre-Raphaelite Circle Teresa Newman, 1991 This is the first biography this century of the Pre-Raphaelite painter Ford Madox Brown, whose paintings include *The Last of England* and *Work*. It describes his rich family life, his more troubled relations with the art establishment and his friend, Rossetti and his influence on other painters. The authors argue that Madox Brown's work has suffered unjust neglect for much of this century.
