Occupational and Environmental Lung Disease Johanna Feary, Hille Suojalehto, Paul Cullinan, 2020-11-01 This Monograph provides the general respiratory physician with a working reference based on the latest literature and expert opinion. The initial chapter provides a contemporaneous global perspective of the epidemiology of occupational and environmental lung diseases in an ever-evolving landscape. The book then goes on to consider specific occupational lung diseases. Each chapter has a clear clinical focus and considers: key questions to ask in the history; appropriate investigations to undertake; differential diagnoses; and management. Controversies or diagnostic conundrums encountered in the clinic are also considered, and further chapters are more broadly centred on the non-workplace environment; specifically, the respiratory symptoms and diseases associated with both the outdoor and indoor environments.

**Controversies in COPD** Antonio Anzueto, Yvonne Heijdra, John R. Hurst, 2015-09-01 Edited by Antonio Anzueto, Yvonne Heijdra and John R. Hurst COPD is one of the most common diseases worldwide and is projected to be the third leading cause of death by 2020. But that does not mean it is easy to understand or manage. In everyday practice, pulmonologists face areas of controversy in COPD, for which evidence-based medicine is often unavailable. This ERS Monograph considers where the current controversies in COPD lie, discussing areas such as screening, premature birth, asthma-COPD overlap syndrome, treatment, rehabilitation and palliative care. This book will be of great interest to both clinicians and scientists, and aims to stimulate further discussion about this diverse and fascinating disease. ...contains a vast amount of information on the disease, its prevalence,

signs and symptoms, diagnostic tests and treatment options. The book's format makes it quick and simple to find out what you need to know, and its size would make it easy to take to work for use in practice [...] invaluable for anyone working with patients with the disease.
