The Night-Comers Eric Ambler,2023-10-03 The Gold Dagger Award-winning author delivers a “sophisticated, circumspect drama of revolution and political terrorism” in a former island colony (Kirkus Reviews, starred review). Engineer Steve Fraser has enjoyed his time on the island of Sunda in Southeast Asia. Having finished his job in the former Dutch colony, he’s looking forward to one last weekend in the capital before heading home. But Sunda, like so many newly independent nations, is not entirely stable. It’s a place where unforeseen incidents can radically change the lives of locals and visitors alike. Fraser thought he’d enjoy a little R&R with a Eurasian beauty named Rosalie. Instead, they’re both taken hostage by a fanatical opposition group determined to overthrow the provisional government. As the government launches a counterattack, the couple’s survival depends on their ability to dodge bullets and the shifting loyalties of the coup’s lieutenants. *The Night-Comers* was originally published under the title *State of Siege*.

Twisted Roots V.C. Andrews,2002-10 Psychological suspense.

The Omega Theory Mark Alpert,2011-02-15 “T he wolf shall dwell with the lamb, and the leopard shall lie down with the kid. And a child shall lead them.” She smiled. “That’s you, Michael. That’s why Brother Cyrus needs you. You’re going to help us fulfill the prophecy.” *The Omega Theory* opens with media reports that, despite U.S. warnings, Iran has tested a nuclear bomb. But the blast from the device is different and far more dangerous than that of any previous nuclear weapon. Surveillance instruments show that for one split second an event occurred that had not taken place since the Big Bang fourteen billion years ago. Meanwhile, science historian David Swift and quantum physicist Monique Reynolds learn that their autistic son, Michael, has been kidnapped by a militant cult called the True Believers. Michael, a descendant of Albert Einstein, has inherited Einstein’s remarkable intelligence and is the only person in the world who knows Einstein’s last secret—the Final Theory, a set of equations that could explain all the forces of nature. Only those who understand the key to creation could know how to destroy it. The Iranian nuclear blast is a demonstration of this understanding. Soon David and Monique realize their desperate search for Michael is also a desperate race to stop the horrific power of the theory from being unleashed. Joining forces with FBI Agent Lucille Parker, David and Monique race from the Old City of Jerusalem to the deserts of Turkmenistan to rescue Michael and stop the cult’s fanatic leader. Their journey proves just how difficult it is to stop those who are willing to die in the name of God. Praised by bestselling peers such as Douglas Preston and James Rollins, Mark Alpert shows he is at the top of his writing game and the cutting edge of science, seamlessly weaving fact and fiction with nonstop heart-pounding action in this explosive thriller. We will never see our universe in quite the same way again.

1492 Homero Aridjis,2003 A best seller in Latin America in the 1980s, this novel of life in fifteenth-century Spain depicts a world in which both the Moors and the Jews are under attack. This is the formative period of the phenomenon known today as Crypto-Judaism, and Aridjis's widely praised book, now available for the first time in an American paperback edition, will find a broad audience among readers fascinated by this aspect of Jewish history. In 1492, the Catholic rulers, Ferdinand and Isabella, expelled the Jews from Spain. In Homero Aridjis' novel, the great saga of the expulsion comes to life with both historical and poetic resonance. A great Mexican poet, Aridjis embraces history and fiction with the warmth and insight of the lyrical vision.--Carlos Fuentes In this highly readable novel which deals with a special and painful chapter in history, Homero Aridjis combines erudition, sensitivity and poetic imagination. I recommend it warmly.--Elie Wiesel A novel of literary subtlety and sensibility. Few contemporary writers have captured so profoundly and with such style this era marked by three essential events: the establishment of the Catholic sovereigns, the expulsion of the Jews from Spain, and the discovery of America.--El País (Madrid) Among worldwide bestsellers, 1492 is the most similar to Umberto Eco's *The Name of the Rose*; both are concerned with the trials of heretics and the violence employed against the dissident. Aridjis gives an encyclopedic vision of catastrophic times.--La Jornada (Mexico City)
