*Fashion Communication in the Digital Age* Nadzeya Kalbaska, Teresa Sádaba, Francesca Cominelli, Lorenzo

Cantoni, 2019-06-03 This book represents a major milestone in the endeavour to understand how communication is impacting on the fashion industry and on societal fashion-related practices and values in the digital age. It presents the proceedings of FACTUM 19, the first in a series of fashion communication conferences that highlights important theoretical and empirical work in the field. Beyond documenting the latest scientific insights, the book is intended to foster the sharing of methodological approaches, expand the dialogue between communications' studies and fashion-related disciplines, help establish an international and interdisciplinary network of scholars, and offer encouragement and fresh ideas to junior researchers. It is of high value to academics and students in the fields of fashion communication, fashion marketing, visual studies in fashion, digital transformation of the fashion industry, and the cultural heritage dimension of fashion. In addition, it is a key resource for professionals seeking sound research on fashion communication and marketing.

**Fashion Communication** Teresa Sádaba, Nadzeya Kalbaska, Francesca Cominelli, Lorenzo Cantoni, Marta Torregrosa

Puig, 2021-09-20 These conference proceedings are the output of one of the first academic events of its nature happening globally, targeting fashion from a communication sciences perspective, including, in a broad sense, cultural heritage studies and marketing. The chapters present theoretical and empirical interdisciplinary work on how various communication practices impact the fashion industry and on societal fashion-related practices and values. The special focus of this volume is how digital transformation is changing the field and its utility to practitioners. Using these academic insights, practitioners can understand the core causes and reasons for trends and developments in the field of fashion communication and marketing.

**Drawing and Painting Dinosaurs** Emily Willoughby, 2021-10-25 People of all ages are fascinated by dinosaurs.

Though their huge skeletons are an impressive sight, much of our sense of childlike wonder comes from artistic depictions of them in books, museum murals and popular culture. This book is about how such 'paleoart' is created, and the process of integrating scientific findings with artistic principles to produce accurate, expressive and arresting artworks of dinosaurs and the world they lived in. Drawing and Painting Dinosaurs explores the anatomy and ecology of different types of dinosaurs including Deinonychus, Apatosaurus and Tyrannosaurus rex. It demonstrates how to interpret paleontological research through the lens of an artistic depiction with examples. There are over 250 illustrations feature pencil drawings, gouache, oil paint, and digital media. Step-by-step projects demonstrate the use of both traditional and digital media, the use of unique techniques and sources of reference, and building up dinosaur anatomy from basic shapes. Finally, it gives insight into how paleoart can be a means to advance knowledge through scientific analysis and prediction. With explorations of dinosaur anatomy, unique techniques for reference and a series of how-to instructions, this book will guide an aspiring paleoartist in learning how to breathe life into the past through art.

**Métis** Chris Andersen, 2014-04-21 Ask any Canadian what Métis means, and they will likely say mixed race.

Canadians consider Métis mixed in ways that other Indigenous people are not, and the census and courts have premised their recognition of Métis status on this race-based understanding. Andersen argues that Canada got it wrong. From its roots deep in the colonial past, the idea of Métis as mixed has slowly pervaded the Canadian consciousness until it settled in the realm of common sense. In the process, Métis has become a racial category rather than the identity of an Indigenous people with a shared sense of history and culture.

**Contours of a People** Nicole St-Onge, Carolyn Podruchny, Brenda Macdougall, 2014-12-18 What does it mean to be Metis? How do the Metis understand their world, and how do family, community, and location shape their consciousness? Such questions inform this collection of essays on the northwestern North American people of mixed European and Native ancestry who emerged in the seventeenth century as a distinct culture. Volume editors Nicole St-Onge, Carolyn Podruchny, and Brenda Macdougall go beyond the concern with race and ethnicity that takes center stage in most discussions of Metis culture to offer new ways of thinking about Metis identity. Geography, mobility, and family have always defined Metis culture and society. The Metis world spanned the better part of a continent, and a major theme of Contours of a People is the Metis conception of geography—not only how Metis people used their environments but how they gave meaning to place and developed connections to multiple landscapes. Their geographic familiarity, physical and social mobility, and maintenance of family ties across time and space appear to have evolved in connection with the fur trade and other commercial endeavors. These efforts, and the cultural practices that emerged from them, have contributed to a sense of community and the nationalist sentiment felt by many Metis today. Writing about a wide geographic area, the contributors consider issues ranging from Metis rights under Canadian law and how the Library of Congress categorizes Metis scholarship to the role of women in maintaining economic and social networks. The authors' emphasis on geography and its power in shaping identity will influence and enlighten Canadian and American scholars across a variety of disciplines.

**Native Acts** Joanne Barker, 2011-09-09 An exciting series combining a strong teenage appeal with a clear structural syllabus.

**American Movie Audiences** Melvyn Stokes, Richard Maltby, 1999-04 No Marketing Blurb

**Beyond Blood** Pamela D. Palmater, 2011-05-13 The current Status criteria of the Indian Act contains descent-based rules akin to blood quantum that are particularly discriminatory against women and their descendants, which author Pamela Palmater argues will lead to the extinguishment of First Nations as legal and constitutional entities. Beginning with an historic overview of legislative enactments defining Indian status and their impact on First Nations, the author examines contemporary court rulings dealing with Indigenous identity, Aboriginal rights, and the Canadian Charter of Rights and Freedoms. Palmater also examines band membership codes to determine if their reliance on status criteria perpetuates discrimination. She offers changes for determining Indigenous identity and citizenship and argues that First Nations must determine citizenship themselves.

**Ecocriticism and Indigenous Studies** Salma Monani, Joni Adamson, 2016-08-05 This book addresses the intersections between the interdisciplinary realms of Ecocriticism and Indigenous and Native American Studies, and between academic theory and pragmatic eco-activism conducted by multiethnic and indigenous communities. It illuminates the multi-layered, polyvocal ways in which artistic expressions render ecological connections, drawing on scholars working in collaboration with Indigenous artists from all walks of life, including film, literature, performance, and other forms of multimedia to expand existing conversations. Both local and global in its focus, the volume includes essays from multiethnic and Indigenous communities across the world, visiting topics such as Navajo opera, Sami film production history, south Indian tribal documentary, Maori art installations, Native American and

First Nations science-fiction literature and film, Amazonian poetry, and many others. Highlighting trans-Indigenous sensibilities that speak to worldwide crises of environmental politics and action against marginalization, the collection alerts readers to movements of community resilience and resistance, cosmological thinking about inter- and intra-generational multi-species relations, and understandings of indigenous aesthetics and material ecologies. It engages with emerging environmental concepts such as multispecies ethnography, cosmopolitics, and trans-indigeneity, as well as with new areas of ecocritical research such as material ecocriticism, biosemiotics, and media studies. In its breadth and scope, this book promises new directions for ecocritical thought and environmental humanities practice, providing thought-provoking insight into what it means to be human in a locally situated, globally networked, and cosmologically complex world.

**Beauty in the Age of Empire** Raja Adal, 2019-08-13 When modern primary schools were first founded in Japan and Egypt in the 1870s, they did not teach art. Yet by the middle of the twentieth century, art education was a permanent part of Japanese and Egyptian primary schooling. Both countries taught music and drawing, and wartime Japan also taught calligraphy. Why did art education become a core feature of schooling in societies as distant as Japan and Egypt, and how is aesthetics entangled with nationalism, colonialism, and empire? *Beauty in the Age of Empire* is a global history of aesthetic education focused on how Western practices were adopted, transformed, and repurposed in Egypt and Japan. Raja Adal uncovers the emergence of aesthetic education in modern schools and its role in making a broad spectrum of ideologies from fascism to humanism attractive. With aesthetics, educators sought to enchant children with sounds and sights, using their ears and eyes to make ideologies into objects of desire. Spanning multiple languages and continents, and engaging with the histories of nationalism, art, education, and transnational exchanges, *Beauty in the Age of Empire* offers a strikingly original account of the rise of aesthetics in modern schools and the modern world. It shows that, while aesthetics is important to all societies, it was all the more important for those countries on the receiving end of Western expansion, which could not claim to be wealthier or more powerful than Western empires, only more beautiful.

**Fossil Reptilia** Richard Owen, 1856

**The Big Aiiieee!** Jeffery Paul Chan, 1991 An Anthology of Chinese American and Japanese American Literature When the first volume of this collection of Asian American literature appeared in 1974, it showed readers the roots and the richness of Chinese American and Japanese American writing. The authors called their anthology *Aiiieee!* because that was the shout, the scream, often the only sound coming from the yellow man or woman in American movies, television, or comic books. But as that work demonstrated, the Asian American writer, long ignored and excluded from participating in American culture, has an articulate and creative voice. *The Big Aiiieee!--an entirely new and truly comprehensive collection--brings together the earliest writings to appear in America, such as the revealing An English-Chinese Phrase Book used by the first generation of Chinese immigrants, and recent stories and essays, such as Come All Ye Asian American Writers by Frank Chin, about the importance of Chinese and Japanese heroic tradition. Here we all can now learn of the pain, the dreams, the betrayals, and the indelible sense of otherness of Americans of Chinese and Japanese descent, in a seminal collection of poetry, prose, and drama--writings filled with rage and beauty, memory and vision. Here is a Gold Mountain of voices. In the telling and retelling of our stories, we create a community of memory. This huge collection invites all of us to become listeners and to claim America.--Ronald Takai, author of Strangers from a Different Shore: A History of Asian Americans*

**Those Who Belong** Jill Doerfler, 2015-07-01 Despite the central role blood quantum played in political formations of American Indian identity in the late nineteenth and twentieth centuries, there are few studies that explore how tribal nations have contended with this transformation of tribal citizenship. *Those Who Belong* explores how White Earth Anishinaabeg understood identity and blood quantum in the early twentieth century, how it was employed and manipulated by the U.S. government, how it came to be the sole requirement for tribal citizenship in 1961, and how a contemporary effort for constitutional reform sought a return to citizenship criteria rooted in Anishinaabe kinship, replacing the blood quantum criteria with lineal descent. *Those Who Belong* illustrates the ways in which Anishinaabeg of White Earth negotiated multifaceted identities, both before and after the introduction of blood quantum as a marker of identity and as the sole requirement for tribal citizenship. Doerfler's research reveals that Anishinaabe leaders resisted blood quantum as a tribal citizenship requirement for decades before acquiescing to federal pressure. Constitutional reform efforts in the twenty-first century brought new life to this longstanding debate and led to the adoption of a new constitution, which requires lineal descent for citizenship.

**Native Recognition** Joanna Hearne, 2013-01-25 Offers a new interpretation of the century-long relationship between the Western film genre and Native American filmmaking.

**Coded Territories** Steve Loft, 2014 This collection of essays provides a historical and contemporary context for Indigenous new media arts practice in Canada. The writers are established artists, scholars, and curators who cover thematic concepts and underlying approaches to new media from a distinctly Indigenous perspective. Through discourse and narrative analysis, the writers discuss a number of topics ranging from how Indigenous worldviews inform unique approaches to new media arts practice to their own work and specific contemporary works. Contributors include: Archer Pechawis, Jackson 2Bears, Jason Edward Lewis, Steven Foster, Candice Hopkins, and Cheryl L'Hirondelle.

**Inuit Qaujimajatuqangit** Joe Karetak, Frank Tester, Shirley Tagalik, 2017-09-18T00:00:00Z The Inuit have experienced colonization and the resulting disregard for the societal systems, beliefs and support structures foundational to Inuit culture for generations. While much research has articulated the impacts of colonization and recognized that Indigenous cultures and worldviews are central to the well-being of Indigenous peoples and communities, little work has been done to preserve Inuit culture. Unfortunately, most people have a very limited understanding of Inuit culture, and often apply only a few trappings of culture – past practices, artifacts and catchwords – to projects to justify cultural relevance. *Inuit Qaujimajatuqangit* – meaning all the extensive knowledge and experience passed from generation to generation – is a collection of contributions by well-known and respected Inuit Elders. The book functions as a way of preserving important knowledge and tradition, contextualizing that knowledge within Canada's colonial legacy and providing an Inuit perspective on how we relate to each other, to other living beings and the environment.

**In Search of Our Frontier** Eiichiro Azuma, 2019-10-08 *In Search of Our Frontier* explores the complex transnational history of Japanese immigrant settler colonialism, which linked Japanese America with Japan's colonial empire through the exchange of migrant bodies, expansionist ideas, colonial expertise, and capital in the Asia-Pacific basin before World War II. The trajectories of Japanese transpacific migrants exemplified a prevalent national

structure of thought and practice that not only functioned to shore up the backbone of Japan's empire building but also promoted the borderless quest for Japanese overseas development. Eiichiro Azuma offers new interpretive perspectives that will allow readers to understand Japanese settler colonialism's capacity to operate outside the aegis of the home empire.

**Extreme Dinosaurs** Luis Rey, 2001-06 Not all dinosaurs were created equal--some were fat, some had feathers, some had three-foot claws. Artist Rey draws upon the latest scientific information to bring astounding new visions of dinosaurs to life with colorful, detailed images. Illustrations.

**Challenging Colonial Narratives** Matthew A. Beaudoin, 2019-04-30 Challenging Colonial Narratives demonstrates that the traditional colonial dichotomy may reflect an artifice of the colonial discourse rather than the lived reality of the past. Matthew A. Beaudoin makes a striking case that comparative research can unsettle many deeply held assumptions and offer a rapprochement of the conventional scholarly separation of colonial and historical archaeology. To create a conceptual bridge between disparate dialogues, Beaudoin examines multigenerational nineteenth-century Mohawk and settler sites in southern Ontario, Canada. He demonstrates that few obvious differences exist and calls for more nuanced interpretive frameworks. Using conventional categories, methodologies, and interpretative processes from Indigenous and settler archaeologies, Beaudoin encourages archaeologists and scholars to focus on the different or similar aspects among sites to better understand the nineteenth-century life of contemporaneous Indigenous and settler peoples. Beaudoin posits that the archaeological record represents people's navigation through the social and political constraints of their time. Their actions, he maintains, were undertaken within the understood present, the remembered past, and perceived future possibilities. Deconstructing existing paradigms in colonial and postcolonial theories, Matthew A. Beaudoin establishes a new, dynamic discourse on identity formation and politics within the power relations created by colonization that will be useful to archaeologists in the academy as well as in cultural resource management.
