Manual of Petrographic Methods Albert Johannsen,1914 The desire of an increasing number of students for more complete information in regard to modern petrographic-microscopic methods than is to be found in any English work on the subject,has led excellent elementary and intermediate text-books on optical mineralogy,and certain portions of most crystallographies and mineralogies,are devoted to microscopical methods.

Depression and Type 2 Diabetes Khalida Ismail,Andreas Barthel,Stefan R. Bornstein,Julio Licinio,2018-08-23 Type 2 diabetes is a major global health concern, and is predicted to affect between 10% to 25% of the world's population in the next 20 years. This epidemic is mostly attributed to ageing populations and unhealthy lifestyles. Thusly, understanding how the mind interacts with the body is essential in unlocking the psychological, biological, and sociocultural processes that increase the risk of type 2 diabetes and make it such a difficult condition to treat. Depression is a common co-morbid condition and when both conditions are present, this poses a significant challenge to patients, clinicians, and health care systems globally. Depression and Type 2 Diabetes is a unique resource offering a fresh scientific approach to this frequent co-morbidity. Using the latest research and guidelines, this resource provides readers with a comprehensive overview of the subject at the different stages of human lifespan, from the uterine environment where the metabolic thermostat is first set, to growing old with diabetes. Written and edited by international experts in diabetes and depression, Depression and Type 2 Diabetes reviews, critiques, and advances the latest research on the prevalent and complex relationship between depression and type 2 diabetes.

Sexual Restraint and Aesthetic Experience in Victorian Literary Decadence Sarah Green,2023-03-09 Can sexual restraint be good for you? Many Victorians thought so. This book explores the surprisingly positive construction of sexual restraint in an unlikely place: late nineteenth-century Decadence. Reading Decadent texts alongside Victorian writing about sexual health, including medical literature, adverts, advice books, and periodical articles, it identifies an intellectual Paterian tradition of sensuous continence, in which 'healthy' pleasure is distinguished from its 'harmful' counterpart. Recent work on Decadent sexuality concentrates on transgression and subversion, with restraint interpreted ahistorically as evidence of repression/sublimation or queer coding. Here Sarah Green examines the work of Walter Pater, Lionel Johnson, Vernon Lee, and George Moore to outline a co-extensive alternative approach to sexuality where restraint figured as a productive part of the 'aesthetic life', or a practical ethics shaped by aesthetic principles. Attending to this tradition reveals neglected connections within and beyond Decadence, bringing fresh perspective to its late nineteenth- and twentieth-century reception.

The ELSI Handbook of Nanotechnology Chaudhery Mustansar Hussain,2020-03-31 This Handbook focuses on the recent advancements in Safety, Risk, Ethical Society and Legal Implications (ESLI) as well as its commercialization of nanotechnology, such as manufacturing. Nano is moving out of its relaxation phase of scientific route, and as new products go to market, organizations all over the world, as well as the general public, are discussing the environmental and health issues associated with nanotechnology. Nongovernmental science organizations have long since reacted; however, now

the social sciences have begun to study the cultural portent of nanotechnology. Societal concerns and their newly constructed concepts, show nanoscience interconnected with the economy, ecology, health, and governance. This handbook addresses these new challenges and is divided into 7 sections: Nanomaterials and the Environment; Life Cycle Environmental Implications of Nanomanufacturing; Bioavailability and Toxicity of Manufactured Nanoparticles in Terrestrial Environments; Occupational Health Hazards of Nanoparticles; Ethical Issues in Nanotechnology; Commercialization of Nanotechnology; Legalization of Nanotechnology.
