Flood Risk Management Strategies and Governance Tom Raadgever,Dries Hegger,2018-01-22 This book points out why organisational or governance aspects are essential for implementing a broad and integrated flood risk management approach. It provides key conclusions on resilient, efficient and legitimate flood risk governance arrangements in vulnerable urban areas in Europe. These are translated into concrete recommendations and good practices that can give you new insights and inspire you to improve policies and practices. The book is a way of spreading the results of the EU 7th Framework Project STAR-FLOOD. The project investigated strategies for dealing with flood risks in 18 vulnerable urban regions in 6 European countries: England, Belgium, France, the Netherlands, Poland and Sweden. STAR-FLOOD focused on governance aspects, from a combined public administration and legal perspective.

Living Together in Multi-ethnic Neighbourhoods Karin Peters,2011 In Western societies, such as the Netherlands, people with different ethnic backgrounds live together in urban areas. This book examines daily life in multi-ethnic neighbourhoods and the meaning of public spaces for social integration. Through observations and interviews in two Dutch cities (Nijmegen and Utrecht) insight is gained into the use and perception of public spaces. Positive experiences in public spaces contribute to feeling at home in a multi-ethnic neighbourhood. Not only intense and lasting contacts, but also fleeting interactions contribute to feeling at home. Experience with diversity contributes to a realistic view of multiculturalism, a view that is based on everyday experiences, with all its positive and negative implications. This, however, does not mean that residents do not use stereotypes or categorizations. However, there is a major difference between the public discourse - which focuses on differences and problems - and everyday encounters, which are perceived as a way to experience and enjoy diversity. Recommendations are that politicians should look at the everyday realities in multi-ethnic neighbourhoods when discussing issues related to multi-ethnic societies. Repeatedly stressing the dichotomy between native and non-native Dutch citizens and focusing on problems, has a negative effect on the everyday lives of people because it produces and reproduces stereotyped images. Integration is not only about non-native Dutch residents adapting themselves to Dutch society: it is also about the extent to which people from various backgrounds live together and feel at home in their neighbourhood.

Empire of the Air Tom Lewis,2021-09-15 Empire of the Air tells the story of three American visionaries—Lee de Forest, Edwin Howard Armstrong, and David Sarnoff—whose imagination and dreams turned a hobbyist's toy into radio, launching the modern communications age. Tom Lewis weaves the story of these men and their achievements into a richly detailed and moving narrative that spans the first half of the twentieth century, a time when the American romance with science and technology was at its peak. Empire of the Air is a tale of pioneers on the frontier of a new technology, of American entrepreneurial spirit, and of the tragic collision between inventor and corporation.

Sierra Stories Gary Noy,2014-08-01 The author of Gold Rush Stories shares tales of the larger-than-life characters from the history of the legendary Sierra Nevada mountain range. With its 14,000-foot granite mountains, crystalline lakes, conifer forests, and hidden valleys, the Sierra Nevada has long been the domain of dreams, attracting the heroic and the delusional, the best of humanity and the worst. Stories abound, and characters emerge so outlandish and outrageous that they must be real. Could the human imagination have invented someone like Eliza Gilbert? Born in Limerick, Ireland, in 1818, she transformed herself into Lola Montez, born in Seville, Spain, in 1823, and brought to the Gold Country the provocative “Spider Dance”—impersonating a young woman repelling a legion of angry spiders under her petticoats. Or Otto Esche, who in 1860

imported fifteen two-humped Bactrian camels from Asia to transport goods to the mines. Or the artist Albert Bierstadt, whose paintings Mark Twain characterized as having “more the atmosphere of Kingdom-Come than of California.” Or multimillionaire George Whittell Jr., who was frequently spotted driving around Lake Tahoe in a luxurious convertible with his pet lion in the front seat. These, and scores more, spill out of the pages of this well-illustrated and lively tribute to the Sierra by a native son.

Checking the Net Contents of Packaged Goods (HB 133 2017 Ed) Linda Crown,Lisa Warfield,2016 This handbook has been prepared as a procedural guide for the compliance testing of net contents statements on packaged goods. Compliance testing of packaged goods is the determination of the conformance results of the packaging, distribution, and retailing process (the packages) to specific legal requirements for net content declarations. This handbook has been developed primarily for the use of government officials; however, it should also be useful to commercial and industrial establishments in the areas of packaging, distribution, and sale of commodities. In conducting compliance testing, the conversion of quantity values from one measuring system to another (e.g., from the metric system to the avoirdupois system) should be handled with careful regard to the implied correspondence between accuracy of the data and the number of digits displayed. In all conversion, the number of significant digits retained should ensure that accuracy is neither sacrificed nor exaggerated. For this edition of Handbook 133, all dimensions for test procedures, devices, or environments have been rounded to two significant digits (e.g., 2.5 cm to 1.0 in) or to a precision level applicable to the test equipment (e.g., 200 kPa for 25 psi and 35 MPa for 5000 psi).

Walnut Ridge and Hoxie Jon Walter,James Whitlow,2016-01-25 When word came to “Old” Walnut Ridge that the railroad was coming, Col. Willis Miles Ponder moved the entire settlement a few miles, cleared a site for a depot, and platted the new town in 1874. Not long after, Hoxie was formed when Henry and Mary Boas offered a right-of-way for another railroad through their land just south of Walnut Ridge. Born by the railroads, the towns have been joined at the hip ever since. By 1889, there was a mule-drawn streetcar connecting the two towns, replaced by an electric streetcar in 1904. Hit hard by the Depression, the towns were saved in part when Walnut Ridge was selected as the home of a World War II Army Air Field, resulting in an influx of 4,000 people. This facility is now used as a city airport, industrial park, and home of Williams Baptist College. Images of America: Walnut Ridge and Hoxie illustrates the boom times and the struggles of these towns through their first 100 years.
