Levels in Clause Linkage Tasaku
Tsunoda,2018-02-05 This is a cross-linguistic
exploration of the use of clause linkage markers
in causal, conditional, and concessive sentences.
Employing a five-level classification of clause
linkage based on semantic and pragmatic grounds,
it shows that, within individual languages
different markers exhibit different distributions
on the five levels. Also, the rich evidence
presented from seventeen languages from many parts
of the world documents that these distributions
present commonalities as well as differences
across the languages of the sample.
