**Neuropsychiatric Symptoms of Cognitive Impairment and Dementia** Ana Verdelho, Manuel Gonçalves-Pereira, 2016-11-01 This book is an up-to-date, comprehensive review of the neuropsychiatry of different types of cognitive impairment by active authorities in the field. There is an emphasis on diagnostic and management issues. Cognitive impairment both with and without criteria for dementia is covered. A critical appraisal of the methodological aspects and limitations of the current research on the neuropsychiatry of cognitive impairment and dementia is included. Unanswered questions and controversies are addressed. Non-pharmacological and pharmacological aspects of management are discussed, to provide robust information on drug dosages, side effects and interaction, in order to enable the reader to manage these patients more safely. Illustrative cases provide real life scenarios that are clinically relevant and engaging to read. *Neuropsychiatric Symptoms of Cognitive Impairment and Dementia* is aimed at neurologists, psychiatrists, gerontologists, and general physicians. It will also be of interest to intensive care doctors, psychologists and neuropsychologists, research and specialist nurses, clinical researchers and methodologists.

*Multicomponent Polymeric Materials* Jin Kuk Kim, Sabu Thomas, Prosenjit Saha, 2016-08-26 The book offers an in-depth review of the materials design and manufacturing processes employed in the development of multi-component or multiphase polymer material systems. This field has seen rapid growth in both academic and industrial research, as multiphase materials are increasingly replacing traditional single-component materials in commercial applications. Many obstacles can be overcome by

processing and using multiphase materials in automobile, construction, aerospace, food processing, and other chemical industry applications. The comprehensive description of the processing, characterization, and application of multiphase materials presented in this book offers a world of new ideas and potential technological advantages for academics, researchers, students, and industrial manufacturers from diverse fields including rubber engineering, polymer chemistry, materials processing and chemical science. From the commercial point of view it will be of great value to those involved in processing, optimizing and manufacturing new materials for novel end-use applications. The book takes a detailed approach to the description of process parameters, process optimization, mold design, and other core manufacturing information. Details of injection, extrusion, and compression molding processes have been provided based on the most recent advances in the field. Over two comprehensive sections the book covers the entire field of multiphase polymer materials, from a detailed description of material design and processing to the cutting-edge applications of such multiphase materials. It provides both precise guidelines and general concepts for the present and future leaders in academic and industrial sectors.

**Ten Journeys to Cameron's Farm** Cameron Hazlehurst, 2013-11-11 'In the whole history of government

in Australia, this was the most devastating tragedy.’ Three decades after what he called ‘a dreadful air crash, almost within sight of my windows’ Robert Menzies wrote ‘I shall never forget that terrible hour; I felt that for me the end of the world had come...’ Ten Journeys to Cameron’s Farm tells the lives of the ten men who perished in Duncan Cameron’s Canberra property on 13 August 1940: three Cabinet ministers, the Chief of the General Staff, two senior staff members, and the RAAF crew of four. The inquiries into the accident, and the aftermath for the Air Force, government, and bereaved families are examined. Controversial allegations are probed: did the pilot F/Lt Bob Hitchcock cause the crash or was the Minister for Air Jim Fairbairn at the controls? ‘Cameron Hazlehurst is a story-teller, one of the all-too rare breed who can write scholarly works which speak to a wider audience. In the most substantial, original, and authoritative account of the Canberra aircraft accident of August 1940 he provides unique insights into a critical, poignant moment in Australian history. Hazlehurst’s account is touched with irony and quirks, set within a framework of political, social, and military history, distinctions of class, education, and rank, and the machinations of parliamentary and service politics and of the ‘official mind’. The research is meticulous and wide-ranging, the analysis is always balanced, and the writing at once skilful and compelling. This is a work of an exceptional historian.’ (Ian Hancock, author of *Nick Greiner: A Political Biography*, John Gorton: *He Did It His Way*, and *National and Permanent? The Federal Organisation of the Liberal Party of Australia*) ‘Ten Journeys to Cameron’s Farm is a monumental work of historical research pegged on a single, lethal moment at the apex of government at an extraordinarily sensitive time in Australia’s history. The book embodies top drawer scholarship, deep sensitivity to antipodean class structures and sensibilities,

and a nuanced understanding of both democratic and bureaucratic politics.’ (Christine Wallace, author of *Germaine Greer Untamed Shrew* and *The Private Don: the man behind the legend of Don Bradman*)

*Deadly Psychiatry and Organised Denial* Peter C. Gøtzsche, 2015-08-31 DEADLY PSYCHIATRY AND ORGANISED DENIAL explains in evidence-based detail why the way we currently use psychiatric drugs does far more harm than good. Professor, Doctor of Medical Science, Peter C. Gøtzsche documents that psychiatric drugs kill more than half a million people every year among those aged 65 and above in the United States and Europe. This makes psychiatric drugs the third leading cause of death, after heart disease and cancer. Gøtzsche explains that we could reduce our current usage of psychotropic drugs by 98% and at the same time improve patients' mental and physical health and survival. It can be difficult, however, to come off the drugs, as many people become dependent on them. As the withdrawal symptoms can be severe, long-lasting and even dangerous, slow tapering is usually necessary. In his book, Gøtzsche debunks the many myths that leading psychiatrists - very often on drug industry payroll - have created and nurtured over decades in order to conceal the fact that biological psychiatry has generally been a failure. Biological psychiatry sees drugs as the solution for virtually all problems, in marked contrast to the patients' views. Most patients don't respond to the drugs they receive but, unfortunately, the psychiatrists' frustrations over the lack of progress often lead to more diagnoses, more drugs and higher doses, harming the patients further.

True Confessions from the Ninth Concession Dan Needles, 2017-08-26 Author and playwright Dan Needles has long delighted readers and audiences alike with his insightful and laugh-out-loud perspective

on small-town life, published in such bestselling books as *Wingfield's World* (Random House, 2011), *Wingfield's Hope* (Key Porter, 2005), *With Axe and Flask* (McFarlane, Walter and Ross, 2002) and *Letters From Wingfield Farm* (Key Porter, 1988). In 1988, Needles and his wife left the city to start a family in a country community located two hours north of Toronto. Together they stocked their farm with sheep, cattle, chickens, pigs and, eventually, four children. Needles' charming chronicle unfolds in essays dated from 1997 to 2016, offering homespun advice for successful country living--like whether to wave from the elbow or to merely raise one finger from the steering wheel when passing a neighbour in the car. He cautions on rural superstitions, such as when his neighbour hesitated before selling him weaner pigs because every time he does the wife of the farmer who's buying them becomes pregnant--which turned out to be true. Here too is the tale of an unlikely friendship between a borderline collie (he's never bitten anything in his life and the sheep are catching on) and an odd duck named Ferdinand, as well as other hilarious stories involving an assortment of farm animals, including the weapon of choice to properly dispatch a rooster-gone-bad; the risks of giving a name to a potential Sunday dinner entrée; and how to outsmart a free-range pig. With his witty insight, Needles shares the art of neighbouring in the country--a place made for visits, and where a figure walking across your field is more of a reason to put the kettle on than to call the police. *True Confessions from the Ninth Concession* is a sesquicentennial crop of antics and aphorisms by Canada's funniest farmer--one that presents a wonderful escape for world-weary city dwellers, and affirmative reading for anyone who is from, or has moved to, rural Canada.
