Bob Shaw

The Wooden Spaceships Bob Shaw,2012-10-22 Twenty-four years have passed since Toller Maraquine led the population of Land to the sister planet of Overland. Somehow, those left behind have become immune to the deadly pterthacosis which caused the exodus, and their voracious ruler now lays claim to Overland. Grudgingly put in charge of his planet's defence, Toller designs a front-line force of spaceships and satellites made of wood, which will engage the enemy fleet in the cold vastness of space, before the invaders can set foot upon Overland. As the war proceeds, a far more deadly, alien menace makes itself known, which will threaten the entire existence of Overland.

Who Goes Here? Bob Shaw,2011-09-29 Shot at by aliens, eaten up by monsters, frozen up, burned up and shipped all over the galaxy, war was one game Private Peace didn't want to play. So why had he joined the Space Legion? Warren Peace had joined the Space Legion to forget - exactly what, he hadn't the faintest idea. But he was sure about one thing - however horrific the crime he'd once committed, the memory of it could hardly be more unbearable than life in the lunatic Space Legion. Private Peace knew he'd got to get out. The trouble was, the only way to escape his 30-year contract was to discover exactly why he'd signed it in the first place. And that meant a hair raising journey into his forgotten past to meet the one person Peace definitely didn't want to know - Warren Peace Mark I - in other words, himself!

Operating Summary United States. General Services Administration,1983

A Wreath of Stars Bob Shaw,2011-09-29 Thornton's Planet is an anti-neutrino planet detected on its approach to Earth. It can be seen only through the newly developed magniluct lenses and its arrival causes a wave of panic. When its course carries it past the earth, interest in Thornton's Planet wanes. Then comes news from the African state of Barandi. Miners wearing magniluct lenses have seen ghosts in the mine passages. The visit of Thornton's Planet has had effects on Earth further-ranging than anyone could have imagined.

Night Walk Bob Shaw,2011-09-29 For 'refusing to co-operate' the Emm Luther Special Police took out Earth agent Sam Tallon's eyes and imprisoned him on a dark and eerie swamp from which nobody ever escaped. But then Tallon invented a way of seeing - ludicrous, agonizing, yet still a way to make escape possible. He 'saw' through the eyes of a bird. A dog, a woman guard and, later, even saw himself through the eyes of his enraged Lutheran pursuers. Madness and death were his constant companions as he schemed and fought and struggled for his life. Any other man would have gladly given up, but then, Sam Tallon had no choice, for he was the unfortunate possessor of the single most important secret in the universe - a secret which had to be returned to Earth, somehow.

The Palace of Eternity Bob Shaw,2011-09-29 Shrouded by its shell of drifting lunar fragments, the planet Mnemosyne is a refuge for creative artists and poets, a place isolated from the desperate, losing struggle of the humans against the Syccans. But then COMsac, the Federation's High Command, come to Mnemosyne, and suddenly the planet is more a military colony than a place for artists. For Mack Taverner, the dilemma is stark: either go along with the brutal military visitation or join the hopeless resistance and become a 'traitor'. His choice has awesome and extraordinary consequences . . .

Ship of Strangers Bob Shaw,2011-09-29 The chronicle of adventures of the survey ship Sarafand as it journeys through space exploring and mapping newly-discovered planets. The mission brings them into contact with man startling life-forms and menacing aliens. On one world the Sarafand sends out six survey modules and seven return: one of them is a shape-changing malevolent alien - but which? On another planet they discover a humanoid civilisation which can move around in time. Suddenly the Sarafand investigators are marooned millions of years in the past. Finally the Sarafand and its crew are stranded in a distant galaxy where everything - including them - is shrinking inexorably to zero size...

Warren Peace: Dimensions Bob Shaw,2012-10-15 Warren Peace joined the Space Legion to forget - and forget what it was he wanted to forget. In his quest to find out who he'd been he got turned into an Oscar by a symbiotic alien parasite. Oscars are invulnerable superbeings, immune to everything and with no need for air, food or drink, let alone sex and drugs and rock'n'roll. Marooned on an airless planet with a whole bunch of them, Warren is bored witless. Then a chance encounter with a lump of pryktonite turns him back into a human, and Warren embarks on a new career- as a galactic troubleshooter. His first mission takes him (with a couple of Oscars providing the muscle) to a water-covered planet where a company producing a mind-blowing drug is having trouble with its alien work force. It seems they're smuggling alien porn mags on to the planet, and are too...tired to work. Warren sets out to find the solution... Warren Peace is the second bizarre episode in the series that began with Who Goes Here? By the acclaimed author of Orbitsville and the Ragged Astronauts trilogy.

Orbitsville Departure Bob Shaw,1991-01 Two hundred years ago mankind found Orbitsville, a sphere whose habitable inner surface comprised living space equivalent to five billion Earths. The resulting migration was enthusiastic - and nearly total. Earth is now a backwater place. This book continues the story begun in Orbitsville.

Other Days, Other Eyes Bob Shaw,1972

Tomorrow Lies in Ambush Bob Shaw,2011-09-29 Thirteen fantastical tales, including What Time Do You Call This? - a wildly ironic story about a bank robber who shuttles to an alternate universe and runs into himself. Communication - a modest plan by a shaman spiritualist gets out of hand when the dead begin to contact him. And Isles Where Good Men Lie - a space caravan of scale-armoured, bacteria-laden immigrants begins to make landings on Earth every twenty-two hours.. and is likely to do so for the next twelve centuries.

Orbitsville Bob Shaw,1991-07-25 A BSFA Award-winning novel. For centuries the men of Earth had scoured the cosmos for habitable planets, but had found only one. Then Vance Garamond discovered something infinitely better - a Dyson Sphere, the interior of which, surrounding a sun, is larger than five billion earths.

Orbitsville Judgement Bob Shaw,2012-09-18 Orbitsville is the scene of two of Bob Shaw's most successful novels and is possibly the most gigantic artefact ever dreamed up by an SF writer - a vast hollow world completely enclosing its sun, habitable across its entire inner surface. At the end of ORBITSVILLE DEPARTURE the whole world was shifted to an alternative universe. In a conclusion which is both stunning and moving, ORBITSVILLE JUDGEMENT tells what happens next...

The Fugitive Worlds Bob Shaw,2012-08-06 The opening of The Fugitive Worlds finds Toller Maraquine II - grandson of the hero of The Ragged Astronauts and The Wooden Spaceships - bemoaning the fact that life on the twin planets of Land and Overland has become dull and uneventful compared to the stirring times in which his illustrious forebear lived. Then, while on a balloon flight between the worlds, he makes an astonishing discovery - a rapidly growing crystal disc, many miles across, is creating a barrier between Land and Overland. Precipitated for personal reasons into investigating the enigmatic disc, Toller - armed with only his sword and boundless courage - becomes a pivotal figure in events which will decide the future of entire planets and their civilizations.
